BUICK

Model 29, with Top, Glass Front and Prest-O-Lite tank, \$1250

Every Buick Car develops horse power far in excess of its rating. The roughest going presents no difficulties to the Buick, for the Buick Motor is a veritable giant in action, fully sustained by the utmost stability of every part—transmission, frame, body, steering gear, axles, shaft, differentials, brakes, springs, wheels—everything down to bolts, nuts, and cap screws. All this enables the Buick to take "low gear" hills on high gear speed, "picking up" at every yard without the shift of a lever.

In addition to all this, the Buick Motor has been so refined that all Buick models for 1912 stand in the front rank with the most silent-running cars. As every car-wise man is familiar with the unequalled racing record of the Buick, it is not necessary to mention speed.

6 Models, at prices fixed according to power and size. \$850, \$1000, 1075, 1250, 1800, One-ton Buick Truck \$1000

IF A GOOD THING WHY NOT TRY IT?

The Boy Scout Movement is Spreading Over the World but Has Not yet Struck this Locality

The Boy Scout movement aims to bring a good that is both practical and lasting to the boys of America and other nations. To this end it is no easy road that is mapped out for the Boy Scout. He must undergo real training, for his hands, he must be able to use them to advantage in practical every day matters; for his feet, he must be swift and of brave endurance, must know how to walk, how to run, to give himself the least possible fatigue and at the same time cover the greatest possible distance; for his eyes, he must learn to use them as he travels, to see things just as they are and to be able at a moment's notice to describe them; for his ears, he must cultivate the acute hearing of the long practiced woodman.

There are various orders of Scouts and a boy passes from one order into a higher by taking a stiff examination and securing merit marks sufficient for his promotion. Neither money nor name can secure promotion. No money is required at all. The name is not even known. A boy is examined by number, not name.

The various ranks of Boy Scouts are: Tenderfoot, 2nd Class Scout, 1st Class Scout, Life Scout, Star Scout, Eagle Scout. Besides these ranks there are 57 different departments in which any boy may specialize and receive as a reward a medal that has international significance, and which would open a way for him into that special vocation in the great world of business. All this without money and without price. These departments range all the way from agriculture and scholarship, to painting and engineering, includes music and plumbing, bookkeeping and dairying, and includes 49 other departments as diverse and as practical. In any one of these any boy if he become a Boy Scout may decide to specialize and receive free instruction and help from the properly constituted local Boy Scout official.

The first rank a Boy Scout enters is the Tenderfoot rank. Even this requires an examination, easier than the others, but still practical and helpful.

The boy who wishes to join must present a written statement from his parents to the Local Scout Council that they are willing that he should become a Boy Scout. If the Local Council should see fit they may require a physical examination by a local physician to see if the boy is physically fit for the work.

Then the boy is ready to prepare for the Tenderfoot examination which is as follows:

1. Name and give the Scout law, sign, salute and significance of the badge.
2. Know and give the composition and history of the national flag and the customary forms of respect due to it.
3. Must be able to tie four of the following knots: Square reef, sheet-bend, bowline, fisherman's, sheep-shank, halter, clove hitch, timber-hitch or two half hitches.
4. Must solemnly take the Scout oath and keep it.

All instructions needed to satisfactorily pass examinations are given through local officers of the movement.

READ THIS AND THEN STAY AWAY IF YOU CAN

The gentlemen of the League have their entertainment well under way. It promises to surpass to an unmentionable degree the freak concert given by the League last year. An orchestra of 20 instruments is to furnish the instrumental music, while a vocal chorus of 15 voices is being traoped. A trip in the moon, a real live moon and a real trip, be it understood, is to be featured that night. The most thrilling magic, the most laughable monologues, the most memorable playettes, coupled with the most brilliant electrical arrangements are to be presented by 24 young men of Farmington. To be given in the town hall the second week in April. You can't afford to miss this. Watch for further announcements.

Morrow Will be Here Next Week

Superintendent Morrow of the Michigan Anti-Saloon League is to be in Farmington March 28 and in the evening will deliver an address to the citizens of Farmington. Dr. Morrow is quite an important figure in Michigan affairs. He is a big man and a brainy man too, and courageous withal. As a speaker very few men in Michigan excel him. Reserve the date.

Friday Night, March 22

Prof. Huss delivers the closing lecture in the course of lectures given this winter in the M. E. church. His topic is "Luther Burbank, the Great Plant Wizard." A good musical program is being provided. You cannot afford to miss this closing lecture. Prof. Huss has no superior in America in popular presentation of the great secrets of plant life.

About Enrollment of Voters

I do not believe too much publicity can be given the voters of the importance of proper enrollment.

The opinion seems to prevail that voters will be afforded the opportunity to enroll only on enrollment day, which is Monday, April 1, 1912.

No elector shall be deemed a qualified enrolled elector who has not enrolled since August 1, 1911.

In many cases it will not be convenient for an elector to appear before the board in person on April 1st and the law provides that an elector may enroll at any time by delivering, in person or by mail, to the city or township clerk, or the officer in charge of the enrollment book, a written request for such enrollment, accompanied by affidavit setting forth that he is a qualified elector and that it is his bona fide intention to affiliate with the political party with which he seeks to enroll. If a voter enrolls by affidavit on or before June 26 he will have the right to vote at the August Primary. A voter who has not enrolled either by application and affidavit or on an enrollment day (except as specifically provided) cannot participate in and will not be permitted to vote at a primary election.

If the voter neglects or refuses to give the name of his party, or if he has none, he shall not be enrolled by the enrollment board.

In some sections, owing to local conditions, voters have enrolled as "Independent," "Citizens," "Socialists," etc., who affiliate in state elections with some other political party. If such enrolled voter desires to change party affiliation to Republican, Democrat, Prohibition etc., in order to participate in the August primary, he can only do so by personally making application on April 1st, and not by written application and affidavit.

FREDERICK C. MARTINDALE, Secretary of State.

Your Advertisement in this paper would be a profitable investment. You will notice that the leading business men of every community are the ones who advertise. There's a reason.

THE SUCKER LIST

When the postoffice authorities "pulled" the Standard Securities Company, alias Wisner & Company, in New York the other day, they took away with them a wagon load of nicely engraved oil and mining company certificates and "literature" telling how to make a budding dollar blossom into many thousands.

Among the papers gathered up by the inspectors was a list of over 100,000 names of people who have bought or might be induced to buy stocks. The inspectors call it the most valuable "sucker list" in existence. Many of the names were followed by remarks showing that the persons named had a reputation for being quick to grasp the kind of opportunity which A. L. Wisner & Co. and the Standard Securities Co. advertised.

The startling fact is that these people actually sold more than two million dollars' worth of this worthless stock to the public.

It would be an insult even to presume that your name is on the "sucker list," but are you sure your money is so carefully husbanded and invested as to be immune from the lure of the financial "prospects" in oil, in mines, in real estate developments, whose assets are the beautifully engraved certificate? Have you considered the ABSOLUTE SECURITY that a strong bank like the

Farmington Exchange Bank
(A STATE BANK)

offers you? Have you put in the balance against prospects the CERTAINTY of the return of the principal and interest on demand? Don't get on the sucker list.

Fred M. Warner, Pres. Sam'l D. Holcomb, Vice Pres.
C. W. Wilber, Cashier.

"His life was an inspiration His memory is a benediction"

can be truthfully said of the man who, during his lifetime provided for the comfort of his family and who also set apart each year sufficient to provide for their care and protection after his death.

Thousands of men are providing Life Incomes for their families by means of Life Income contracts issued by THE **EQUITABLE LIFE ASSURANCE SOCIETY** of the UNITED STATES, the cheapest and surest way of taking care of the future of dependents. These contracts are annual dividend ones, participating each year in the Society's earnings. Give us your age and the age of a beneficiary. We will give you an illustration of this agreement.
