

How to Start a Fortune

Here are the secrets of accumulating millions, told by millionaires. Is Andrew Carnegie's advice worth taking? Well, it made a good many millions of dollars for him. The late Marshall Field tells how he rose to be the merchant prince of America. Henry Clews tells the secret of his rise from book-keeper to Wall Street magnate; to-wit.—

Do not spend more than three-quarters of your income for living. Be careful of your store debts. Have a bank account in the

Farmington Exchange Bank (A STATE BANK)

TWO GAMES AT HOME THIS WEEK

Rochester Here on Thursday and the Oaklands Saturday

Farmington is scheduled to play a game of ball with the strong Rochester team Thursday afternoon as the Enterprise goes to press and a good game and big crowd is expected.

On Saturday the Oaklands of Pontiac are due to play here and another good game may be expected.

The Farmington team is giving the lovers of the sport some excellent games this season and everyone who can do so should attend the games and do all in their power to encourage and assist the boys. There is no other one thing of such value to a town as a good team of ball players. Base ball is clean, healthy sport and the more enthusiasm that is shown over it the better it is for all of the boys and young men of the community. At the same time it gives the older ones a chance to limber up and exercise their vocal chords as well as to stir their patriotism and good nature.

500 Soldiers March Thru Town

Monday morning 500 soldiers marched through town on their way back to Fort Wayne from the summer encampment at Ludington. They had camped the previous night about a mile and a half this side of Novi and started out on their last day's "hike" at three o'clock in the morning. They were due to reach Fort Wayne that day and did so, but a portion of the regiment was loaded into street cars as they were unable to stand the strain.

They went to Ludington by rail, but walked all the way back, and some of them showed considerable weariness on the homeward march. They were accompanied by several teams of mules hauling the camp luggage, and their appearance was suggestive of war times.

A Chance to Get a Job

Notice was given Monday by the United States government that an examination will be held at the federal building in Pontiac on Sept. 28 for the position of postmaster at Walled Lake, which is a fourth class office. The successful applicant will succeed S. M. Gage, resigned, who acted as Uncle Sam's servant at the village for a number of years. The compensation of the postmaster for the past year was \$558.

The examination is open to all citizens of the United States who can comply with the requirements and the applications should be properly executed and filed with the civil service commission at Washington within seven days before the date of the examination.

The Epworth League Musicales

The musicale given under the auspices of the Epworth League in the town hall last Saturday evening was quite a success. Our excellent home talent was assisted by Mr. Davey, tenor soloist of the Cass Ave. church, Detroit.

Mr. Davey has a beautiful voice and every person present felt that each selection he gave it itself was a treat and well worth the price of admission.

Miss Irwin was heard for the first time in Farmington. Her guitar selections were well done and enjoyed by all.

Rev. Gullen Goes to Conference

Rev. G. R. Gullen left on Monday for Alpena, where he attends the sessions of the Detroit conference.

CIVICS AND HEALTH

Will be the Subject of the Address by Dr. Guy L. Keifer Next Sunday Morning

Dr. Guy L. Keifer, health inspector of Detroit, will give an address on "Civics and Health" in the M. E. church next Sunday at 10:30 a. m. Everyone, especially the village and township officers, the doctors and teachers of Farmington and the township are invited to be present. Everyone ought to be interested in the welfare and prosperity of their home and town. Dr. Keifer will help us solve the problem, "How can we better our homes, our town and our country." Service promptly at 10:30.

Sunday-school at the close of the morning service to which everyone is invited.

League service, at 6:15 p. m., will be conducted by Harley Warner.

Scarcity of Gravel Makes Delay

A little more work was done by the cement crew on Grand River this week and the road is now completed as far as Stuckey's corners. The graders are quite a long way ahead and the road is now closed at the fourth gate corner and opened at the Berg road in the western limits of Redford village. The delay has all been caused by lack of gravel, which, it seems, is difficult to get.

Worth Millions to the Country

The recent hot weather has been worth millions of dollars to the farmers of the country. With the exception of the loss to the oat crop because of unfavorable weather at harvest time the crops are exceedingly fine and those yet to harvest promise to be above the average.

Corn has been growing at a tremendous rate lately and potatoes are doing as well. Both will be far above the average.

The government reports indicate that there will be bumper crops of wheat, oats, rye, corn and potatoes throughout the United States this year.

Postponed for a Week

The meeting of the North Farmington Cemetery Auxiliary, which was to have been held on Tuesday of next week, the 17th, has been postponed a week, until the 24th, on account of the state fair. The meeting will be at the home of Mrs. Clyde Seelye.

The Flower Contest

The flower contest held in the M. E. church last Sunday morning was a decided success. Each class in the Sabbath school decorated a portion of the rostrum with flowers which they had grown and cared for themselves. Each class had a plan of its own in arranging the flowers and the arrangements were most artistic.

The judges, Mesdames Steele, McCracken and Warner, decided that Mrs. Way's class of boys should be given the highest place in the honors for the most beautiful flowers, the greatest variety and the best arranged. Special mention ought to be made of the exhibits of classes No. 3 and No. 4. Indeed, it was somewhat difficult to decide which class deserved the higher place in the awards.

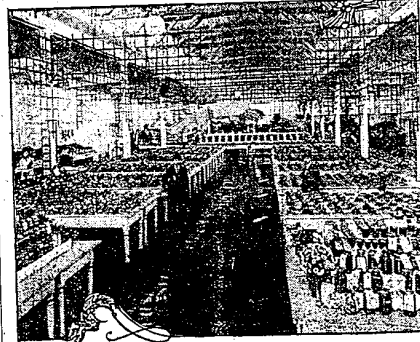

Attended the Dedication

Quite a number of Farmington people attended the dedication of the new M. E. church at Redford last Sunday. Bishop Harris of Japan baptised the daughter of Rev. and Mrs. Gullen and also the son of Mr. and Mrs. E. K. Gullen at the afternoon service.

BUSINESS EDUCATION

Gradually the authorities in our educational matters are coming to appreciate the value of a thorough business education. It is now seen that a knowledge of business methods and customs is of more practical value to the average young person than a full course in the dead languages or even higher mathematics. The graduates of the well known Detroit Business University, which for more than 60 years has been giving a splendid training for business pursuits have been active in advancing the claims of business education and of this particular school. This has much to do with the fact that this institution is everywhere regarded as the pioneer and the par excellence today among business training schools.

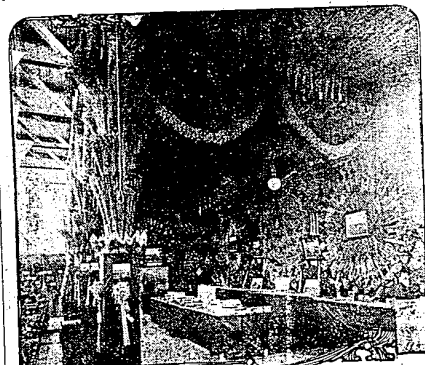

Michigan's Fruit With Flavor Exhibited at Michigan State Fair—Gold Prizes For Canned Fruits

Display of Michigan grown fruit. Special prizes in gold awarded this year for the first time for canned fruits.

DEVELOPMENT bureaus from all over Michigan have taken space at the Michigan State Fair this year, opening Sept. 10, to compare his work with others. It is there that the horticultural exhibits will be seen in Horticultural exhibits at the State Fair invariably at the State Fair in every other department. Special prizes are being offered again, and the management of the State Fair has offered for the best exhibit of canned fruit a cash prize of \$50 for the best, \$25 for the next best and \$10 for the third best. This is a new list of prizes and is certain to bring a number of interesting exhibits of canned goods. The State Fair offers to the agriculturist of Michigan the opportunity to exhibit his developed products. He may have spent a lifetime in some special line, such as fruit, and he probably has achieved a remarkable success.

Michigan State Fair Adds an International Land Show to Its Many Innovations For This Year

An International Land Show will be exclusively a Michigan State Fair feature, no other state fair having such an exhibit.

ONE exhibit that promises to attract state wide attention at the Michigan State Fair Sept. 10 to 21 is the land show, which will occupy all the space underneath the grand stand.

Here has been secured a space 400 by 40 feet in extent, which, with the walls, will provide over 20,000 square feet of exhibition space. Along the front of the exhibit will extend a wide walkway, and the visitors will be able to walk in and out of the exhibit while viewing the best farm products and fruits of the states of the Union.

When it is known that these same exhibits attracted to the Chicago land show over 900,000 people it will be seen that the management of the Michigan State Fair made a ten strike when it added this attraction. No other state fair in the land has a show of this character. Among the famous exhibits that will be put on are those of the Illinois Central railroad showing the products of the sunny southland, the Northern Pacific railroad, the Atlantic Coast Line, the Southern Pacific railroad, the Great Northern, the Canadian Pacific, the Norfolk and Western and many more. The products of the countries to the east and to the west will be shown and those with the products of Michigan shown elsewhere will give a glimpse of the entire country's agricultural resources.

Many of the exhibits at the land show will take 2,000 square feet of floor space, others will take 1,000, and several will probably be much larger than 2,000 square feet in extent. The management intends to make this a permanent feature and with that object in view will next year construct a larger space, as it feels certain that such an exhibit will prove a banner attraction at the Fair.
