SPEARING PIKE ILLEGAL

Lansing, Mich.—Pike may not be speared in Michigan's non-trout streams during the spring spearing season, the Department of Conservation said today. Last spring Grass (Great Northern) pike could be taken by spear, but the 1931 Legislature took this species from the list. The only species that may taken by spear this spring are suckers, redhorse, mullet, carp, dogfish and garpike.

Employers often summon additional help by telephone

When applicants apply for work today, they usually are asked to leave their telephone numbers. For the easiest and quickest way to summon additional help is by telephone.

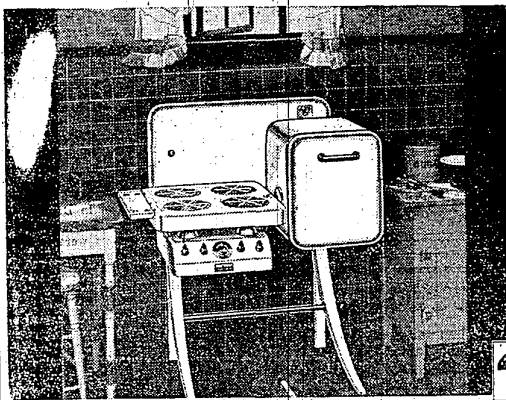

In many instances, other things being equal, the person who can be reached by telephone gets the job.

Your telephone is one of your most important business and social assets. And, in emergencies, such as fire, accident or sudden sickness, your telephone is PRICELESS PROTECTION.

ONE SWALLOW MAY NOT
MAKE A SUMMER

but "One Stove
changed my whole kitchen!"

IT'S AN ELECTROCHEF . . .

"Since I've had my new Electrochef electric range, my kitchen seems entirely made over. It's hard to believe that anything could change it so completely. The room is brighter and pleasanter, and actually appears new with my modern, snow-white range standing in the sunlight by the window. I suppose it's the sheer cleanliness of this new cooking method that appeals to me most. Imagine a stove that supplies only PURE HEAT from a glowing wire!—without smoke or

soot to blacken utensils or soil my kitchen walls and curtains. Then too, the smooth white porcelain and sparkling chrome-plated finish of my Electrochef make it so much easier to have a really clean stove. Simply wiping with a damp cloth restores the original luster. I'd never again be satisfied with any other stove!"
