

**HOUSEWIVES CALLED UPON TO SAVE FATS**

Housewives were called upon today to continue to salvage household fats, not to make materials

of war but for essential home use. Angus C. Doane, assistant director for Michigan of the Agriculture Department's Production and Marketing Administration has reported that there is a critical shortage of fats and oils for making such household essentials as

**Hydrophobia Uncommon Among Men and Animals**

"Two or three things can be said very definitely about hydrophobia," the late Dr. Logan Clendenning wrote. "Hydrophobia is a rare disease even among dogs. It is even rarer in human beings. Only about 30 per cent of dogs who are actually bitten by another mad dog develop rabies. And if 100 people were actually bitten by a rabid dog so that the virus entered the skin, only about 10 per cent of them would become infected."

"In order for infection to occur, the skin must be broken and infective material from the dog's saliva enter the wound. The skin, of course, is usually broken by the dog's bite. But there again there is a sort of preventive instituted by nature, because when the saliva is heavily infected, the dog has usually reached the paralytic stage so that its jaw muscles are paralyzed and it cannot bite."

"Still another piece of comfort is that even if infection occurs in a human being, prevention is pretty certain with the Pasteur treatment. This treatment can be begun even several days or weeks after the bite has occurred and still be perfectly effective. A full course of this treatment reduces the possibility of the disease developing in a person who has been bitten by a mad dog from 10 per cent, as mentioned above, to less than one-half of 1 per cent."

**AN IMPORTANT DATE FOR THOUSANDS OF ARMY VETERANS NOW IN CIVILIAN LIFE**

Between now and November 21, thousands of Army veterans will reenlist in Uncle Sam's new volunteer peacetime Army. Because men who have been discharged between May 12 and November 1 of this year and reenlist on or before November 21 will be able to return to the Army with the same grade as they held when discharged.

Men with six months of satisfactory service discharged as privates will, on reenlistment before November 21, be given the grade of private first class.

Men now in the Army who apply for discharge after NOVEMBER 1 for the purpose of reenlisting in the Regular Army will also retain their present grades, if they enlist within 30 days after discharge and before FEBRUARY 1, 1946.

**"BEST JOB IN THE WORLD"**

These special privileges are typical of the new law recently passed by Congress. Few opportunities for a lifetime career offer as many attractive advantages.

Can you think of any other job that would give you good pay, your food, clothing, quarters, free medical and dental care, world-wide travel, 30 days furlough every year, education and training in any of nearly 200 skills or trades, and enable you to retire with a life income any time after 20 years' service?

There isn't any! That's why a job in the Regular Army has been called "The Best Job in the World."

**VETS' CHILDREN MAY OBTAIN FREE BENEFITS**

Five colleges in the state of Michigan have been named as eligible educational institutions where children not under 16 and not over 22 years of age, can obtain free education—benefits.

Any child, within the stated age bracket, who has a parent in the armed forces killed in action, or died from any other cause during the war, or has since died, or is totally disabled, is entitled to attend one of the designated colleges.

The Michigan law allows any eligible child to attend a state educational institution or training school of a secondary or college grade without payment of matriculation fee, athletic fee, or tuition. No provision however is made for payment of subsistence or text books.

The schools eligible to veterans and their children are: Central Michigan College of Education, Western Michigan College of Education, Northern Michigan College of Education, Michigan State Normal College, and Michigan College of Mining and Technology. All counselors of Councils of Veterans' Affairs have sample application forms and will assist in executing them.

The State Board of Education has been given the responsibility of making the determination as to eligibility.

**Rightists and Leftists**

In general, rightists are members of the conservative political party while leftists are members of the liberal or radical party. The terms are derived from the custom in some European countries of seating the conservatives to the right of the presiding officer of the legislative body and the liberals or radicals to the left of the presiding officer. In the center sit members of more moderate views. In this country political parties or groups are sometimes referred to as tending to the right (conservatism) or to the left (liberalism).

**Gulf Stream**

The Gulf Stream maintains a course roughly parallel to the east coast of the United States until it reaches the latitude of Cape Hatteras. Here it begins to turn eastward, passing about 60 to 80 miles south of Nantucket Shoals and 120 to 150 miles southward from Nova Scotia. From therecord of bottle-pcaps set adrift off the east coast of the United States and returned here from the British Isles, it would appear that it takes a little over a year for an object to drift across the Atlantic ocean.

**Hold's Pins**

A small magnet is useful to pick up and hold pins when sewing. Pins can be taken off the magnet easily as needed, and are not so likely to scatter on the floor.

**Loop Tablecloth**

If the silence cloth for the dining room table happens to be too large, fasten loops at each corner and catch them to small hooks screwed on the underside of the table.

**Label Preserves**

Label canned fruits and vegetables, showing the year they are canned. Then you can always be sure to use the oldest fruit.

**Cooking Peas**

A small amount of soda can shorten the cooking time of green peas about half without loss of vitamins. Use only a pinch.
