It was City Commission Day at Farmington Exchange Club last week and Exchange Emory Hatton, himself a member of the Commission, introduced each member of our city's governing body. The commissioners in turn spoke briefly on the particular phase of city government which they direct. Commissioner Hatton, Commissioner Nacker, Commissioner Bagshaw, City Clerk Harry Moore, Superintendent of Public Works Blough and Arlene Flank of The Enterprise were present. Commissioner Hinger was unable to attend but his report was read by Mr. Hatton.

Exchangegettes were particularly interested in the report given by Fred Bagshaw who is Commissioner of Finance and Ordinances. He spoke of the plans that the city has in mind for expansion of the community, and of what has already been done in this line. The system of assessment and taxation discussed and several questions answered.

Exchangegettes welcomed into membership Dr. Nyal J. Carpenter, Farmington's new dentist who is occupying the offices formerly used by Dr. C. C. Gooden, who is retiring from practice here.

Hyman Levinson is chairman of the meeting and program for April 10. Mr. Levinson is manager of Radio Station WQAR, Pontiac, and all are looking forward to the program he will bring.

Mrs. Harry Remaley of Merriam Court, has returned from two and a half years in the Navy on the south Atlantic. He is now with his wife in Kalamazoo.

It has been brought to our attention that a few of the wives feel that they are not a part of this association. This is NOT the case. The wives are just as much members as their husbands. The only reason that their names have not appeared on the membership cards is that the cards were made out just as the membership rolls were signed by the member. If you wish the membership card to read Mr. and Mrs. you must sign in that manner. If any of you desire your card changed to include the Mrs. just bring it to us and we will fix it for you. In the meantime we wish to state that the women are members too, and we will welcome any help that they may find time to give.

Save your old questions until May 11th and bring them to the meeting and have them answered. Willing to bare them???

One of our representatives called on a property owner last week asking him to join us. He was told that "I've got everything I want." So our representative turned and waded through the mud and water to the next house. No comment.

It was ladies night at Kiwanis Club last Wednesday evening, and all enjoyed the usual excellent meal, followed by singing and a bit of fun-poking.

Trace Conroy introduced the speaker of the evening who was Clyde Reed of Boys' Republic. Although Boys' Republic is known throughout the United States few people who live in such close proximity to the school know very much about this boys' self-governing community. Mr. Reed explained how boys are sent to the school and how they set up their own government, making their own laws, and electing their own officers. The instructors at the school carefully consider each individual case, striving to determine what each boy is best suited to do, and then they endeavor to teach that boy in his line of work. They teach their students how to work with their hands, primarily.

Mr. Reed said:

His talk was made particularly interesting by the various illustrations he gave of actual cases and incidents in life at Boys' Re-
