

City Residents Urged To Aid Garbage Pick-Up

The City Council Monday evening authorized the City Manager to enter into a contract with Gus McCreeley for the collection of garbage in the City of Farmington.

McCreeley has purchased the collection business from Mr. Welch, who formerly held the city contract. McCreeley stated that the same equipment and personnel will be used in the pick-up service.

Residents are requested to follow these suggestions to insure satisfactory service. Use containers which can be handled by one man. Containers should have tight lids and garbage may be wrapped but excessive use of paper should be avoided. Don't put solid objects such as cans, lids, bottles or rubbish in garbage containers. On pick-up days, be sure that garbage containers are near the edge of the street early in the day.

Progress Report

(Continued from Page One)

In the last few weeks, Dunkel stated that all elementary grades would be on half-day sessions with the opening of school as well as the Seventh Grade. Elementary classes will go to full day schedules as the various school units are completed. The superintendent emphasized that because of a class shortage the Seventh Grade will remain on half days through the school year.

Township Board

IT REALLY HAPPENED!!!

Believe it or not — two men came in last week and rented lockers for the deer they're gonna git. We hope they git 'em — but you jest don't have any idea the funny feelin' it gives us when we stop to think about it. Bet you didn't even know we could think. We bin thinkin' all mornin' about somethin' fer you to eat that would be good — and about as far as we got is some pancakes and sausage. Of course the sausage is some the guys made themselves. They seasoned it and put lean pork in it — fer jest 49c a lb. To go on the pancakes we have some pure maple syrup. It's really the straight stuff, too — it aint somethin' we whipped up in the garage cause we aint got no garage down here. Course if you want some butter you can git a lb. of Vlasic butter fer 75c and to wash it all down there's Conroy's whole bean coffee fer 69c a lb. We know yuh gotta have somethin' else to eat durin' the day — somethin' that'll stick to yer ribs, so we got some pork butts fer 59c a lb. If yuh want apple sauce to go with yer pork we have the green apples that'll make it — or if yuh want it in a can there's some here what yuh can git two cans of fer 29c. Now what do yuh suppose we're gonna mention next? You guessed it — ham!!! But it's jest gonna be one end of the ham this week — we're gonna keep the other end so we'll have somethin' to talk about next week. This week it's the shank end fer 53c a lb. Now to go with ham how'd yuh like to chaw on a ear of sweet corn? We'll have some fresh from the country and they tell us this corn is really somethin'. It's bigger ears and bigger kernels. We don't know what it'll sell fer but the price will be right. You know somethin' else we got that's good. Squash! Some calls 'em banana squash and others calls 'em butternut. We'll buy the banana squash name — but they've got more meat in 'em and more flavor than any squash we've et in quite a spell. We'll tell yuh how to cook 'em if yer interested and really like squash. They aint got hardly no seeds in 'em either — it's all eatin'. If yer havin' yer dinner in yer yard wouldcha like hamburgers? Our fresh ground beef is jest 59c a lb. this week end. To go around the hamburgers yuh gotta have a bun — but to mess it up a little more there's some barbeque relish put out by Crosse and Blackwell that you can git 2 glasses of fer 49c. Besides bein' pretty colored, this relish tastes good. Wanna take our word for it??

- Obituary -

Eugene W. Brown
Eugene W. Brown died Aug. 16, 1952, at the home of his daughter following several months illness. He was born in Vernon, Michigan on March 21, 1877, the son of William and Harriet (Kinsman) Brown and was married to Olive Durling March 20, 1907.

Mr. Brown was employed by the Detroit United Railway for several years and in recent years by the City of Farmington and he had resided in Farmington for 37 years.

He is survived by his wife, Olive; one son, Lt. Frank Brown of the Air Control and Warning Division of the U. S. Army Air Corps, stationed at Anchorage, Alaska; one daughter, Mrs. Jack (Pearl) Reinke of Farmington; five grandchildren; one brother, F. W. Brown of Florida, and one sister, Mrs. Nellie Lake of Thosa, Michigan.

Funeral services were held from the Spencer J. Heeney Funeral Home at 11:00 a.m. Wednesday with Rev. J. J. Sweeney officiating at the Methodist Church officiating. Interment was in Green Lawn Cemetery, Vernon, Michigan.

New Crops Head

Kenyon T. Payne

Kenyon T. Payne, associate professor of agronomy at Purdue University, will become professor and head of the department of farm crops at Michigan State College, effective August 15.

Dr. Payne, who will fill the vacancy left by the death of Professor Roy Decker, was appointed by the State Board of Agriculture, governing body of the college. The new farm crops department had a native of Kansas and has done extensive work in plant breeding and in forage crops.

He is a 1928 graduate of Kansas Agricultural College, has a master's degree from the University of Nebraska and a doctorate in the field of philosophy degree from the University of Minnesota.

From 1939 to 1941, Payne served as a special agent for the bureau of plant industry of the U. S. Department of Agriculture. He served in the U. S. Army Air Force from 1941 to 1947.

Mustering Out Pay Forms Now Available

Forms are now available for Korean veterans to file for mustering out pay, an American Legion spokesman reported this week.

Veterans may secure the forms through the American Legion service officer, Joseph D. De Vriendt, at the police station.

Grouse Survey Indicates Good Hunting This Fall

A midseason summary of ruffed grouse nesting success indicates 1952 fall hunting will be somewhat better than in 1951, when hunters cropped a record bag estimated at 630,000 birds.

Conservation department surveys show the total number of observed grouse increased about 30 per cent over a similar census made last year, despite the heavy harvest.

Chicks per brood also increased slightly over last year, but not significantly so.

George A. Ammann, department grouse specialist, cautions that these reports are only early indications of fall hunting prospects. Continued department surveys, in addition to rural mail carrier surveys now under way, will provide more information before the season opens in October.

The midseason report was made by conservation officers, district game supervisors and state and federal foresters.

1952-53 Game Licenses Being Sent To Agents

Shipment of 1,855,000 fall small game, deer and trapping licenses to some 4,000 license agents has started, the conservation department discloses.

The slightly larger and earlier distribution than last year is expected to be finished by September 15.

Copies of the new game law digests also will be shipped, minus waterfowl, deer and bear regulations. Digest supplement will be issued later. Information on possible dates and bag limits for these species was not available prior to regular digest printing time.

Waterfowl daily shooting timetable will be made available to newspapers and magazines and copies of the table will be stocked at department district and regional offices for hunter convenience.

The department will announce when application blanks for special deer season permits will be ready. The department emphasizes that requests for permits should not be made now. Special seasons will be held in northern lower peninsula deer starvation areas where there are too many whitetails for the amount of feed available.

Over 1,077,000 hunting and trapping licenses were issued by agents last season. License fees are the same as last year and are listed in the digest.

Initial printing order for 1952-53 hunting and trapping licenses was for 840,000 resident small game, 20,000 nonresident small game, 500,000 resident deer, 25,000 nonresident deer, 5,000 camp deer, 45,000 resident bow and arrow, 5,000 nonresident bow and arrow and 45,000 trapping permits.

Board To Meet

(Continued from Page One)

sion of the Wayne County sewer line to the new elementary school on Lathers was presented to the Board by the Livestock Board.

It is anticipated that plans for the sewer line extension will be completed by September 1. The plans will then be filed with the city for consideration.

The Board accepted the resignation of Mrs. Margaret Eich, visiting teacher, who is resigning because of poor health. Mrs. Eich joined the Clarenceville staff last September.

horizontally and swing back toward the northeast again. Hubert added that it was reddish when it first appeared and then turned yellow as it drew nearer.

Hubert reported the object to the central filtering center as soon as he could identify himself and then continued to observe in that direction but it did not appear again. "Maybe it was just the moon breaking through the heavy clouds or something," Hubert added, "but it was there, I wasn't just seeing things!"

City Council

(Continued from Page One)

By Mather trucks. Walter Krueger, spokesman for the Floral Park residents, re-emphasized the two proposals previously made by the group. One requested the Mather Trucking Company to use the eastern outlet on Shawlwassee to Nine Mile or Tuck Road and the other limited truck traffic during the early morning hours on Shawlwassee. Krueger emphasized that the safety of residents in that area as well as the value of property is involved.

Bud Mather re-stated the proposals offered by the company. One which he stated has already been put into effect, the limiting of speed of trucks on Shawlwassee to five miles per hour and the other to cooperate in the reurfacing of Shawlwassee Street. Mather emphasized that the trucking company was established in its present location in May of 1946, before most of the residents moved into the area, and that they are doing everything possible to eliminate the nuisance.

The Council recognized that it was their responsibility and duty to regulate truck traffic on secondary roads where the safety of residents and the preservation of roads was involved. However, an appeal was expressed that any legislation enacted would have to cover the entire city and not just one road or one section.

Final decision on the limiting of trucking on all secondary streets in the city was tabled until the next meeting for further study and for consideration by the entire Council.

Jefferson Jottings

By MRS. NORMAN MOORE
21719 Jefferson, Phone 2762-J

Mrs. William Barnum has returned home from a camping trip with the Girl Scouts. This year they were at Lakeport, a few miles from Haron.

Mr. and Mrs. Ernest Moore spent last week end at Sault Ste. Marie where they met her brother and family, who were enroute from Manitoba, Canada. The brother and family are Mr. and Mrs. B. Bennett and daughter Rita. A niece, Vera, also accompanied the Bennetts. The Bennetts are staying with friends and relatives this week before returning home to the Canadian Northwest.

Pat Hart, son of Mr. and Mrs. George Hart of Hawthorne Street, is still at their summer cottage in Canada.

Little Freddie Heisner celebrated his fifth birthday August 19. He formerly lived on Jefferson but now lives in Clawson, Michigan.

Mr. and Mrs. Fred Menke, Jr., and family are vacationing in Florida.

Norman and Patsy Moore spent last week in Romulus, Michigan, at the home of their uncle and aunt, Mr. and Mrs. Edward Moore.

Mrs. Elmer Lambert of Milburn has returned. A life-long girl friend from Ohio is visiting her.

CITY SETS HEARING ON VACATING ALLEYS IN FLORAL PARK

A resolution to vacate certain alleys in the Floral Park section of the city was introduced by the Council Monday evening and September 15 was set as the date for a public hearing on the proposal. The resolution provides for the vacating of all alleys in the section other than those running behind commercial property. The hearing will further provide that an easement for public utilities be reserved on the vacated alleys. Residents of the Floral Park section have requested that the alleys be vacated.

The public hearing is being held in accordance with law to hear any objections to the proposed resolution. The meeting is scheduled for 8:00 p.m. at the Municipal Building.

Parents Pick Up Boys After Adventure Trip

Leave it to the imagination of boys when it comes to adventure. Three of them, Daniel Anders, 11, of 20209 Angling Road, Jerry Rutilla, 15, of 27735 Long Avenue, and Jerry's brother David, 10, started off on a trip some few days ago and such as Texas or California.

They left Tuesday, August 5, with \$17 between them collected from their paper route. When they reached Toledo, Ohio, after sleeping on park tables, eating hamburgers and drinking pop, they became disillusioned. Their fund shrank to 25 cents and they were eating soda crackers. So they started home.

After reaching Ann Arbor they were given an assist by their parents, who had received a call from police. The day was Friday.

Although the boys won't admit it outright, they mentioned something about it being a little chilly at night with three guys and only one blanket.

Yes, sir, Texas and California are some places, but they're a long way off — an awful long way off.

Summer Band

(Continued from Page One)

every Thursday evening at the Band House starting at 7:15 p.m. A contest for band twirlers will be held Thursday morning, August 28, at which time teams of twirlers will compete for the best routine. The contest is at 10 a.m. and parents and friends are invited to watch the display.

WAYNE OFFERS PSYCHIATRIC NURSE TRAINING

A program in Advanced Psychiatric Nursing is being offered by Wayne University's College of Nursing this fall. The course is designed for nurses wishing to specialize in psychiatric patients and also those serving the physically ill of all ages.

As it becomes more evident that physical illness is accompanied by emotional components, nurses working with medical and surgical patients in hospitals and in patients' homes find that a knowledge of psychiatric nursing contributes greatly to more effective service.

Classes begin September 15. Students new to the University are urged to register as soon as possible. Full-time students include those who plan to complete either all requirements for a degree or the one-year program in psychiatric nursing. A number of stipends to cover tuition and maintenance costs for one year's study are available for eligible full-time students.

Graduate nurses whose home or employment responsibilities prevent full-time attendance but who wish further preparation in psychiatric nursing are advised to enroll for the following courses:

Fall Semester — Growth and Development and Advanced Psychiatric Nursing A.

Spring Semester — Mental Hygiene and Advanced Psychiatric Nursing B.

Courses are offered during the late afternoon and evening to accommodate the many nurses who work all day.

Further information may be obtained by writing to Dean, College of Nursing, Wayne University, 5257 Cass Avenue, Detroit 2.

Victue itself turns to life if misapplied.

SCHOOLS RECEIVE INCREASE FROM SALES TAX FUND

A total of \$19,447.20 has been distributed to the Farmington Township School District and \$12,600.65 to the Clarenceville School District under the Sales Tax Distribution Fund for the quarter ending June 30. Charles A. Sparks, Oakland County Treasurer, announced this week.

The distribution is based on the 1951 school census with a ratio of \$6.65 per capita. Farmington is receiving funds on 2,920 children while Clarenceville is receiving funds on 1,901 children. These include students from five years old through 19 years old, based on the 1951 census.

Although this year's per capita rate is down 20c per child, the total is higher in both districts because of the increased number of students. Last year's per capita was \$6.86.

Hens with lice are "lousy" layers, Michigan State College poultryman says.
