"SOME BARGAINS DEAR BOUGHT"

(Author's Name Below)

To look for a bargain is understandable, but to try to buy prescriptions at cut prices is unwise. Real bargains can only be had because of large purchases, or to get rid of slow moving merchandise.

Medicines cannot be safely bought in large quantities because they must be fresh and potent when you take them. Slow moving medicines that have lost their freshness cannot be sold. We discard them.

We price our prescriptions according to a schedule that is based on the exact cost plus the necessary fair profit. We must have to operate a good prescription pharmacy. Using this method, we have no reason to give you anything but exactly what your physician specifies.

Grading cures almost all of these problems, it is reported, and where there is a thick sod, no washout occurs. As soon as the lawns are established most of this run-off will be eliminated.

Ford Trucks Cost Less!

Ford costs start low—
Ford costs stay low...
Certified studies show Ford Trucks last longer than any of the other four leading makes

Compare Ford model for model with any other truck line and you'll find that, based on factory-suggested list prices, Ford has more models priced under competition than any other line.

But low initial cost is only one of the reasons why Ford's cost less. Take resale value—it stays high, thanks to the demand for used Ford Trucks. Take operating costs—no other trucks give you the dependability of Ford's rugged chassis design with the gas and oil economy of a modern Short Stroke engine. Only Ford gives you a Short Stroke engine, V-8 or Six, in every truck—and at no extra cost.

Ford Trucks cost less to maintain because they last longer. This is a fact certified by independent life insurance experts. There are plenty of reasons why. Ford Pickups, for example, have the highest combined front and rear axle capacity in the half-ton field. Ford Heavy Duty engines have sodium-cooled valves that last up to five times longer because they run up to 225 degrees cooler.

When you take everything into consideration, you'll agree it costs less to own a FORD Truck. Before you buy any truck, see your Ford Dealer.

FORD TRUCKS LAST LONGER

Certified by independent insurance actuaries for the ninth consecutive year! Studies of over 10,000,000 current license registrations show that Ford Trucks last up to 9.5% longer than any of the other 4 leading truck makes!
