

Falcon Gridders Hold First Big Scrimmage

Some 65 Falcon gridders, waded up their two-day practice schedule with a scrimmage 134 Saturday that gave Coach Ray Hays some ideas on his starting team for the opener against Bentley. The team has not begun regular one a day practice sessions.

Following the scrimmage Hays singled out ends Gary Barish and Gary Atchison as showing up well in the rough performance now and now.

Three boys, Bill Uppiger, Keith Markert and Mike Tothlin will be battling for the two top tackle spots. Tomlin has been out of action for a week but is expected to be back in shape soon.

At the guard spots Dave

Local Boys on EMU Squad

Two Farmington boys, Dave Catherman, a halfback, and Bill Smith, a tackle, are on the Eastern Michigan University football squad this fall. Both Smith and Catherman are graduates of Farmington High School.

The Broncos will be out to better their 1-7 record of last fall. For the first time in several years they will have a forward wall averaging well over 200 pounds per man and coach Fred Trosko could field a backfield averaging 195 pounds per man.

Sorrows Team Bigger, More Experienced

Our 23 of Sorrows football fans will see one of their biggest teams in recent years when the Sorrows take the field against St. Lawrence of Ulica Sunday, September 18 at 2:30 in Ulica.

Boistering the Sorrows line will be tackle Don Hallmark weighing in at 210 pounds and Jim Marzone who tips the scales at 205. Pivot man Joe Vanderveen is a 190 pounder. The added size plus the return of 13 lettermen may spell trouble for the opponents of the Farmington team this season.

All four starters in the backfield are back from last year including captain Bill Zinger, a halfback. There are six linemen returning who won letters last fall and three other backs.

The team had been working out twice a day up until the start of school and now has tapered off to regular once a day sessions.

Coaches Ron Mordinski and Dan Potter are working mainly with sophomores and juniors as only two seniors reported for practice during the pre-season workouts.

BUMP ELLIOTT, University of Michigan head football coach, discusses fall plans with, left to right, John Walker of Walled Lake, former fullback now at center, and Frank Clappison, guard and Mike Agee, fleet halfback. Both Clappison and

Ann Graham on Deer Permits Available Soon

Application cards for 1961 "any deer" permits will be in the hands of Michigan license dealers sometime early in September, the Conservation Department reports.

Applications must be post-marked by midnight, October 10, and mailed to the Department's Lansing office. Although the Lansing office, steps in law enforcement, steps in applying for permits will be the same as last year.

Requests for permits and questions concerning this fall's application process are starting to flood the Department's Lansing office. Most of the questions will be answered in the 1960 deer hunting guide which will be distributed with application cards to dealers.

The guide will show special season areas and contain instructions on making applications and filling out cards, general hunting regulations, and other information hunters must know.

FHS Student Completes Summer Science Course

Peter Rheinstein, 16, son of Mrs. Frank Rheinstein of 3160 Lamar was one of 56 students chosen to attend the Summer Science Training Program for Secondary School Students at the Colorado School of Mines in Golden. The program, which ran from July 11 to August 20, was sponsored by the National Science Foundation.

Peter was first introduced to the possibility of attending the Colorado School of Mines last April by Mrs. James Williams, Chemistry teacher at the High School. In an exchange of correspondence, Peter received application forms to fill out by himself and by the school. From thousands of applicants, 56 top-notch students from high schools all over the United States were selected.

On the basis of his achievements, aptitude and ability, Peter was one of the 53 boys and three girls. His high school ranking was the highest at Farmington High on both the National Merit Scholarship and the Michigan Mathematical Science Contests.

The National Science Foundation and the School of Mines paid all tuition and other expenses incurred during the course. The students contributed one-half of their travel expenses, one half of their board, and paid for their books.

ON SATURDAY, July 9, after considerable preparation, Peter and two other boys from Michigan - Paul Kassmeyer from Birmingham and Jeffrey Weaver from Farmington - left Detroit for Michigan Central aboard a Chicago-bound train. A stop-over allowed them time to tour the University before heading West. Traveling from Chicago to Denver aboard the Denver "City of Denver" afforded luxurious accommodations plus a comfortable view of the countryside. The three boys arrived at the School Sunday, July 10, and were immediately given a tour of the campus.

Monday, the first day, began and ended with tests. The second day found all students in class receiving instruction in various phases of Chemistry and Geology. While at the School the students were fortunate to have the finest physical equipment to permit extensive laboratory experiments. During the time spent in Golden, the students collected their own mineral specimens.

Saturday field trips covered considerable territory. The students studied the geology of the area around Golden and Denver. They toured the University of Colorado at Boulder, and studied nearby Lovell Pass at an altitude of well over 12,000 feet. They also toured the Garden of the Gods at Colorado Springs and saw the Air Force Academy. Another interesting trip was made to the famed Colorado Petrified Forest. The final field trip was to Rocky Mountain National Park where they again climbed to an altitude of 12,000 feet (the stunning view was worth every foot).

Numerous other trips were taken by the students. THESE included a tour through the Martin Company which produces government missiles, and a trip to the United States Geological Survey at the Federal Center in Denver where they viewed the entire map-making process. The group also visited the Experimental Mine at Idaho Springs where they were guided through a fascinating series of tunnels which were many miles long another solid rock.

The last day the students took another battery of tests to determine what they had actually derived from the six weeks' course. Before leaving Colorado, many of the students visited Denver where they toured the state capitol, visited the civic center, and enjoyed the city's fine attractions.

After six weeks of hard work and many accomplishments, Peter returned home Sunday, August 21. As a result of this wonderful opportunity, Peter "gained a better understanding of the chemical and geological fields of Science." He "also became acquainted with people from all over the country."

On the lighter side - Peter was glad he had a number of letters to write. It was the first time he had been west of Lake Michigan.

PETER IS NOW in his senior year of high school and is very active in many organizations. He works for the school paper; is Business Editor of the yearbook; is a member of the Chess Club, Debate Club, Discussion Club, Student Council, and the Young People's Society of Temple Bethel.

It is always reassuring to know that the future of our United States rests in the hands of capable, young leaders like Peter Rheinstein.

PETER RHEINSTEIN

LEGAL NOTICE

OFFICIAL NOTICE OF SALE \$23,000.00

CITY OF FARMINGTON COUNTY OF GRAND, MICHIGAN

1960 SANITARY SEWER

Sealed bids for the purchase of 1960 Sanitary Sewer Bonds of the par value of \$23,000.00, will be received by the undersigned at his office in the City Hall, Farmington, Michigan, on the 9th day of September, 1960, until 7:30 o'clock p.m., Eastern Standard Time at which time the award will be publicly opened and read.

Said 1960 Sanitary Sewer Bonds will be dated May 1, 1960, shall consist of 23 bonds of the denomination of \$1,000.00 each numbered consecutively in direct order of maturity from 1 to 23, inclusive, and will mature serially as follows: \$1,000.00 December 1, 1960; \$2,000.00 December 1, 1961; \$3,000.00 December 1, 1962; \$4,000.00 December 1, 1963; and each of the years 1963 and 1964.

Said 1960 Sanitary Sewer Bonds will be dated May 1, 1965; \$2,000.00 December 1, 1966; \$3,000.00 December 1, 1967; \$2,000.00 December 1, 1968; \$3,000.00 December 1, 1969.

Bonds of said issue number 1 to 23, inclusive, maturing in the years 1960 to 1969, both inclusive, may be redeemed at the option of the City in lower numerical order, on any interest payment date on or after December 1, 1962, at par and accrued interest to the date fixed for redemption. Notice of redemption shall be given by publication of such notice in at least one newspaper or publication circulated in the City at least 30 days prior to the date fixed for redemption, at least once in a newspaper or publication circulated in the City at least 15 days prior to the date fixed for redemption, as part of its regular service, notices of sales of municipal bonds in lower numerical order, on any interest payment date on or after December 1, 1962, at par and accrued interest, shall be coupon bonds and shall bear interest from their date at a rate of not exceeding five percent (5%) per annum, expressed in multiple of 1/4 of 1%. Said interest shall be payable on December 1, 1960, and semi-annually thereafter on June 1 and December 1st of each year. The interest rate for each coupon period on any such bond shall be the rate in effect on the principal and interest shall be payable at a bank or trust company to be designated by the purchaser of the bonds. Accrued interest to the date of delivery of such bonds shall be paid by the purchaser at the time of delivery.

Said 1960 Sanitary Sewer Bonds are issued in anticipation of the collection of an equal amount of money from assessments of special assessments in Special Assessment Roll No. 99-10.

In addition to special assessments, said bonds pledge the full faith, credit and resources of the City of Farmington for their payment.

For the purpose of awarding the bonds, the interest cost of each bid will be computed by determining, at the rate or rates specified therein, the actual value of all interest on the bonds from October 1, 1960, to their maturity and deducting the amount of \$500.00, drawn upon an incorporated bank or trust company and payable to the order of the Treasurer of the City of Farmington must accompany each bid as a guarantee of good faith on the part of the bidder, to be forfeited as liquidated damages if such bid is accepted and the bidder fails to take up and pay for the bonds. No interest will be allowed on the good faith checks and checks of unsuccessful bidders will be promptly returned to each bidder's representative or by registered mail.

Bids shall be conditioned upon the amount of \$500.00, drawn upon an incorporated bank or trust company and payable to the order of the Treasurer of the City of Farmington must accompany each bid as a guarantee of good faith on the part of the bidder, to be forfeited as liquidated damages if such bid is accepted and the bidder fails to take up and pay for the bonds. No interest will be allowed on the good faith checks and checks of unsuccessful bidders will be promptly returned to each bidder's representative or by registered mail.

Bills shall be conditioned upon the amount of \$500.00, drawn upon an incorporated bank or trust company and payable to the order of the Treasurer of the City of Farmington must accompany each bid as a guarantee of good faith on the part of the bidder, to be forfeited as liquidated damages if such bid is accepted and the bidder fails to take up and pay for the bonds. No interest will be allowed on the good faith checks and checks of unsuccessful bidders will be promptly returned to each bidder's representative or by registered mail.
