**YOUR PHARMACIST SPEAKS**

By: JOHN D. SCHMALZ, R.Ph.

Varicose veins are quite common in adults of all ages and show no partiality between sex or race. The term varicose, is derived from the Latin word "Varix," meaning "dilated vein," and is a condition which is caused by degenerated fortentures. In fact, as early as the 7th Century A.D., tying of the great veins in the upper thigh was attempted to relieve the distress of varicose veins.

The cause or causes of this condition are not definitely known. Hereditarily may play a part, chronic chest conditions with cough, constricting clothes, occupations calling for heavy lifting or prolonged standing and infections are all contributory factors.

Something that is known, however, is that PHARMACY'S reputation for friendly, courteous service. When you are in need of medication prescribed by your physician, or items in the cosmetics, candies and greeting cards lines, visit JOHN S. PHARMACY, 3511 13th St. Rd., Phone GR. 4-7400.
