BYRNES SEES Crime Rate Going Up - Continued from 1A cent and injury accidents are up 28 per cent.

This has been the first time in recent years that the city has ever had three fatal accidents in one calendar year. A big factor in this increase has got to be the increased volume of traffic on city streets, which has occurred due to expanding populations in the city and surrounding areas.

THE DEPARTMENT has and will continue to try to reverse this trend in the coming year through education, enforcement and improved high way engineering.

ON THE PLUS side, the department has experienced a 30 per cent decrease in the number of fires and a substantial reduction in building and contents loss. The department also experienced a 200 per cent decrease in the number of animal complaints which can probably be attributed to the hiring of a part-time animal control officer and a program to get all dogs off the city licensed.
