The Ford Store.

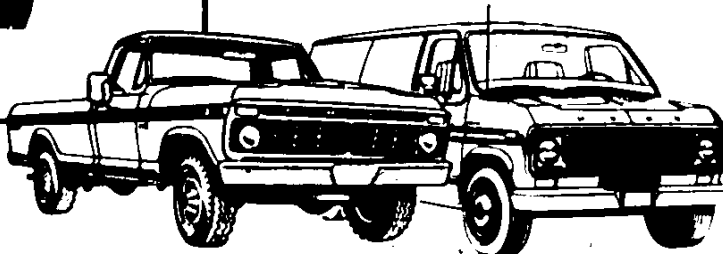

When we first started selling cars, 20 years ago, our goal was to have the best Ford dealership in this part of the country. When folks thought about buying a car or truck they referred to our place as "The Ford Store." People know that our service door wouldn't close after the sale, and they kept coming back when it was time to trade.

We worked long hours to develop a highly skilled, factory trained service department with all the latest equipment; the finest and most complete parts inventory around; friendly showroom personnel who know their product; — all working together as a team to give the customer the kind of service he should expect. That's what it took to be the best. We believe that selling you a car is just the beginning of the deal. Won't you come in and let us show you what a car dealer used to be.
