

Honor thy seat.

At Silver's, we believe you are what you sit on. So, if you're commonly referred to as the "office crank," take a look at your seat.

Chances are, it's an uncomfortable, uninspiring desk chair that was ordered straight from an office furniture catalog.

Sight unseen, comfort unfelt.

And if that's the case, come over to Silver's. We don't believe in selling anything sight unseen, comfort unfelt.

We believe in showrooms. Spacious showrooms where you can look around. Take your time. See and touch and test everything firsthand.

Get to know each other.

Pick a chair, for example. One that looks like it will feel good. Sit down. Swivel. Lean back. Take your time, and get to know it. See if it's the kind of chair you want to live with.

The same goes for sofas. Desks.

Lamps. Accessories. Pictures. Tables. Everything is on display.

Happily ever after.

Now, we can't promise that a new chair from Silver's will change your office image overnight. But we're sure you'll be happy with your purchase for years to come.

Happy enough to come back to Silver's. For more furniture. Draperies. Carpeting. Office supplies. Business gifts.

Filing systems. Everything it takes to make your office what you want it to be.

All part of the Silver's Touch.

Come into our showrooms at 16350 Woodward or the store at the Tel-Twelve Mall where we're open until 9:00 p.m. Tuesday and Thursday and until 6:00 p.m. on Saturday. The Silver's Touch. From the people who treat every seat like it was their own.

The Silver's Touch
