Bothersome Buckeye bridge

Michigan motorists headed for the sunny South via 1-75 should add an hour's driving time if planning to criss the Ohio River at Cheinnath between 2.00 and 7 pm on Fridays or the first day of holiday periods. The delay between Cheinnath Ohio, and Covington, Ky. is caused by the Brent Spence Double Deck Bridge which is in-adequate to handle peak traffic. Southbound 1-75 motorists are advised by Michigan Auto Club to use a trail-blazed alternate route through Cheinnath to avoid alternate route through Cheinnath to avoid

by Michigan Auto Club to use a trail-blazed alternate route through Cheninasi to avoid being stranded in a slow-moving traffic jam often extending north for three miles. An electric sign two miles north of the first of three alternate route exis is located at the Hopple Street interchange and is activated when traffic conditions warrant. The backup occurs when afternoon factors, traffic and early excepting entertainment.

ry traffic and early evening entertainment and sporting events goers converge with southbound tourist traffic at the bridge. The tie-up can be avoided by following

an alternate route indicated two miles in ad vance by an electric freeway sign. The alternate route is trail-blazed through Cincinnati and marked on the accompanying map by arrows from three starting
