Interest rates are down.

Interest rates on home mortgages have been declining recently. This means it's likely to cost you less to finance a home now than it would have even a few months ago. And because there are more homes than buyers right now, you have the added advantage of a buyer's market.

We have the money.

In fact, we have a variety of mortgage loans available: VA, FHA, conventional, and conventional with private mortgage insurance. This gives you flexibility in terms of down payment and monthly payment.

What's more, you can apply at any NBD office, and have the closing at an NBD office in your neighborhood in as little as two weeks after approval.

We'll answer your questions.

If you'd like to know more about buying and financing a home, all the help you need is yours for the asking at any of more than 100 National Bank of Detroit offices. Or at National Bank of Dearborn, 18800 Hubbard Drive, Dearborn; or National Bank of Troy, 155 W. Big Beaver Road, Troy; or NBD Mortgage Company, 1500 North Woodward, Birmingham. You may be pleasantly surprised to learn just how much house you can afford.

Making banking better for you
