FATHER SAYS MY FIRST FEDERAL SIX-YEAR
TELETYPE SAVINGS ACCOUNT
AND I WILL MATURE AT ABOUT
THE SAME TIME.

Our high-interest certificate savings accounts help you earn extra money by waiting.

Pretend it's six years from now.

You go to your desk drawer and look at the six-year certificate savings account you opened back in 1977. Remember the \$1,000 you took to First Federal Savings of Detroit? Well, now it's \$1,584.00. And all you had to do to get that additional \$584.00 was wait.

Of course, if you'd rather pretend it's four years from now, or two and a half, or even just one, we can show you plans that still will turn your money into more than you might have thought possible. And remember, too, that you can have certificate savings accounts in addition to your regular savings account (which earns 5 1/4% per year daily interest, paid and compounded quarterly). In fact, that's how many people get the money to open a certificate savings account. They save for it.

What's more, at First Federal, certificate savings accounts can entitle you to a number of special services, many not available anywhere else. We think you should know about these things because we know that money is important to you.

So don't wait to find out.

We know what money is for.
