

70 ways a Detroit Bank-er can help you get all your banking done...at any DetroitBank Corporation Bank.

What is full-service banking?

At DETROITBANK Corporation Banks, it's more than 70 different financial services. Many of which you may now be using.

If you have a savings account at your DETROITBANK Corporation Bank, you can add Check & Save from your checking account. You can add Ultra/Chek to your checking

account so you can write your own loans.

You can secure an auto loan, put your valuables in a safe deposit box, or purchase a long-term savings certificate with higher interest.

You can get a Visa or a Master Charge card, bank by mail or on Saturdays, and get the latest information on home mortgages.

Our banks also have a long list of services available to businesses, both local and international.

We have full-service banking at all DETROITBANK Corporation banks. While they are all related, each must be operated as a separate bank by law. For the best service, transactions on your checking or savings

account should be made at your DETROITBANK Corporation Bank.

Your subsidiary bank can give you all of the 70 services listed below, including working with Detroit Bank & Trust to give you special services like Trusts and International Banking.
