A season's art

An all too familiar sight to Farmington area homeowners, icicles prove they can make even the worst weather bearable by offering an occasional glimpse of natural design. This jagged curtain of ice formed during the aftermath of last week's snow. (Staff photo by Harry Mauthe)

John Wilson, Community Relations Manager, Royal Oak, offers you this telephone tip:

Teach your children how to use the phone in an emergency!

Anyone can have an emergency at home that calls for fast, intelligent use of the phone... a sudden illness, accident, fire. Hopefully you already have a list in your phone book or elsewhere near the phone, giving the numbers of your doctor, hospital, poison control, police, fire department and your home address. But, if you have children at home, would they know how to use the phone in an emergency? Make sure they do.

Show them where you keep the emergency numbers and how to call the operator, if necessary. Your babysitter should be told who to call, too. Know if 911 can be dialed for fire, medical and police help in your area. Nobody likes to think about emergencies at home. But, it's better to give it a little thought now, than be sorry you didn't later. Why not check out the family on your emergency phone call procedure right now?

Alimony 'adjustment'

If you pay alimony, keep in mind when you file your tax returns that it's no longer necessary to itemize deductions in order to deduct alimony payments. Alimony is now listed as an "adjustment" to gross income, rather than an itemized deduction.
