Never Put a Croupy Child to Bed Without Giving a Dose of

Foley's Honey and Tar
Mothers know it stops croup because it cuts the thick chest mucus, clears the throat of phlegm, stops the hoarse metallic cough, eases the difficult breathing, then quiet sleep.
Mrs. T. Neuner, Eau Claire, Wis., writes: "Foley's Honey and Tar completely cured my boy of a very severe attack of croup. We know from experience that it is a wonderful remedy for coughs, colds, croup, whooping cough."

Chalmers 7-Passenger Touring Car—Price \$1350 Detroit

Chalmers Sets New Mark In Flexibility and Economy

Speed is a matter of state and city laws—not of motors. Why, then, pay for racing or semi-racing machines which fret and fume at legal limits? Why is not the car of wide flexibility and moderate top speed the sensible car to buy? In Chicago, during the 24 hours from noon March 26 to noon March 27 a Chalmers 7-passenger stock touring car set a new mark for flexibility and economy. It traversed the dense "loop" traffic of Chicago, using high gear only, without stop of motor, attained a total of 586.8 miles and reeled off 14 miles to every gallon of gas. The Contest Board of the A. A. A. certifies to these facts.

Here is a car capable of highest sane speed. That operated perfectly on high gear even from a standing start at a traffic officer's signal. That ran like a watch for 24 hours and could have run an indefinitely longer time. That made the startlingly economical figure of 14 miles to the gallon of gas. That was in

as perfect condition at the end of this grind as at the beginning. Had there been hills to climb it would have shown equal capacity there. And this car can be bought for a price several hundred dollars less than others that have shown no such flexibility or city economy.

Would you care for such a car? You can have it twin brother. You are invited to call and ride in the car.
