Belgium's Needs.

Mesdames Irish, McGee and Hambleton attended the meeting of the Detroit Federation of Women's clubs, held in the city Friday. Mme, Leon Dupriey, of Louvain, Belgium, spoke in the interests of her country, telling flow, she, with her husband and little children and 25,000 other unfortunates were driven from their city by the Germans, their homes burned behind them. She also stated that the women who were left there were incrooms wrecks and unable to till the soil, as all implements of agriculture had been taken away, even to the garden hoes, and unless the children were furnished proper nourishment and care the Belgium race would certainly become extinct.

Her husband, who was a professor in the Louvain University is now teaching at Harward, and she is speaking at different cities to let the people know, from one who mas, been in the very midst of the conflict, what the Belgium people are now, and have been suffering. A liberal ahount was subscribed in Detroit and no doubt the hand of sympathy and loyalty will through her efforts, reach the land of her birth and its suffering people.
