

NOTICE TO SICK WOMEN

Positive Proof That Lydia E. Pinkham's Vegetable Compound Relieves Suffering.

Bridgeton, N. J.—"I cannot speak too highly of Lydia E. Pinkham's Vegetable Compound for inflammation and other weaknesses. I was very irregular and would have terrible pains so that I could hardly take a step. Sometimes I would be so miserable that I could not sweep a room. I doctored part of the time but felt no change. I later took Lydia E. Pinkham's Vegetable Compound and soon felt a change for the better. I took it until I was in good healthy condition. I recommend the Pinkham remedies to all women as I have used them with such good results."—Mrs. M. T. C. Harmon, 322 Harmony St., Penn's Grove, N. J.

Such testimony should be accepted by all women as convincing evidence of the excellence of Lydia E. Pinkham's Vegetable Compound as a remedy for the distressing ills of women such as displacement, inflammation, nervousness, backache, painful periods, nervousness and kindred ailments.

A Plunge Into Hostilities.

"It was a mistake for me to marry in order to keep from going into the army," remarked the man with a black eye and a lump on his forehead. "You seem to have been in some sort of action."

"It's becoming the usual thing. And they tell me that in the army a man may go months and months without seeing any real fighting."

With the Fingers! Says Corns Lift Out Without Any Pain

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the fingers if you will apply on the corn a few drops of freestone, says a Cincinnati authority. At little cost one can get a small bottle of freestone at any drug store, which will positively rid one's feet of every corn or callus without pain or soreness or the danger of infection. This new drug is an ether compound, and dries the moment it is applied, and does not inflame or even irritate the surrounding skin. Just think! You can lift off your corns and calluses now without a bit of pain or soreness. If your druggist hasn't freestone he can easily get a small bottle for you from his wholesale drug house.—adv.

Psychology of Strife.
"Are we going to undertake a war of ruthlessness?"
"I hope not," replied Senator Sarghian. "I've seen many a fight of one kind and another and I have never known a bad conscience to operate as anything but a handicap."

GAVE HIS CANE AWAY!

Mr. S. P. Beaton, Kerrville, Texas, writes: "For several years prior to 1906 I suffered from kidney and rheumatic troubles. Was bent over and forced to use a cane. For these disorders I am glad to say I used Dodd's Kidney Pills, which proved to be the proper remedy. I am 64 years old, feel fine and once again am straight as an arrow. Dodd's Kidney Pills deserve great credit." Be sure and get "DODD'S," the name with the three D's for diseased, deranged, and damaged kidneys; just as Mr. Beaton did. No similarly named article will do.—Adv.

Early Opportunity.
"We came to this country and took the innocent red man's land away from him."
"Yes," replied the man who has been having trouble with real estate; "in some cases the innocent red man was lucky to unload just when he did."

THE BEST BEAUTY DOCTOR

Is Cuticura for Purifying and Beautifying the Skin—Trial Free.
For cleansing, purifying and beautifying the complexion, hands and hair, Cuticura Soap, with touches of Cuticura Ointment now and then afford the most effective preparations at the minimum of cost. No massaging, no irritating, no waste of time.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Soothing Strains.
"Nero fiddled while Rome burned." "The original filibuster," commented Senator Sarghian.

When Your Eyes Need Care
Try **Murine Eye Remedy**
It is the only eye remedy that is gentle and safe. It is sold by all druggists and is the only eye remedy that is sold by all druggists.

Fads and Fancies of Fashion

When Nancy Dances

Nancy's mother has just finished making her a dance frock which she is to wear at the final party of her dancing class. It is dainty and crisp enough to make a guinea-winger butterfly envious—it is exactly suited to the graceful and slender little maid and her gently frolicsome dancing. Long will Nancy remember the glory of this frock and the painstaking work and planning that make it such a success.

The frock is made of Swiss-organza flouncing, very sheer, very white and very wide. The edge of the flouncing is scalloped, and each scallop frames a wreath of delicate embroidery, made of small leaves and a single blossom. Above this edge there are small, widely scattered dots and above them a narrow border of little embroidered blossoms and leaves. The scalloped edge appears only on the skirt, for the discriminating taste of Nancy's mother teaches her that much decoration is out of place in the dress of little children. The skirt is laid in shallow, even pleats at the top and joined to a plain "baby" waist in which the embroidered border appears just above the waistline. The sleeves are merely

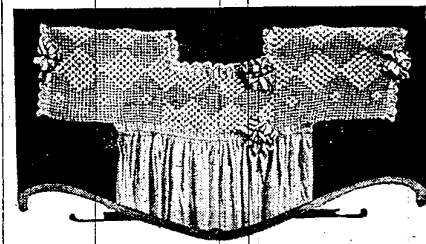

short, pointed flounces, edged with fine val lace whipped on to a rolled hem. A little cape hanging in points from the shoulders and at the front and back, veils the embroidery in the bodice and is edged with val lace. The Dutch neck is cut square and finished with a fine, narrow edging of lace also.

The slash, which suits so well the daintiness of the dress, and the buoyant bow, which holds Nancy's hair, are of wide, soft satin ribbon in light sea green. Just why this particular color and shade are so convincing as the best possible choice for a gossamer dress, is not to be fathomed—but they are.

Two petticoats, joined to a single body to make them hang even, are worn under the frock and they are made of organdie edged with val lace. No matter what splendor may make little hearts sing at the party, nothing can shine down the beauty of Nancy's dress.

Vogue for Beads.

The vogue for beads has journeyed the greater world. Belts and sashes of beads are used to encircle the waists of the comfortable sports coats.

Lace Crochet in Night Gowns

However much we admire and wonder at the marvelous ingenuity that adapts machinery to lace making, and however pretty machine-made lace may be they can never hold the same place in the regard of women that hand-made lace holds. This is the reason that everyone is so industriously crocheting and knitting and making tatting in these busy days. Even business women, on duty trains or cars, going to and from offices, often prefer lace-making to reading, and probably combinations appear to have arisen of current events as those who devote themselves, everyday to newspapers. At all events they have something to show for their time.

Hand-made lace is more durable than lace made by machines—as a rule—and they make the most acceptable of gifts to women friends. Just now yokes for gowns, or corset covers, or combinations, appear to have arisen of current events as those who devote themselves, everyday to newspapers. At all events they have something to show for their time.

The photograph shown here falls to do justice to the handsome nightdress made of white japonica silk, joined to a yoke and sleeves of crochet lace. The yoke is not in a usual pattern, so that anyone familiar with the work will know how to make one like it. A beading and scalloped edge, made in the crochet, finishes the neck and sleeves. Narrow, light blue satin ribbon is run through the beading and knotted loops of the ribbon form the pretty rosettes that set off the sleeves and yoke. A little edge, in the same shade of blue as the ribbon is crocheted to the scallops. A yoke of this kind is likely to out-

wear any of the sheer materials used for the skirt of the gown, but skirts are easy to replace.

Sleeves Appearing for Evening.
A noticeable feature of the dressmaker in a tour of an evening in New York was the sleeves, some of which were quite long and no gown noticed was sleeveless. An occasional non-descript dress was noted. One elaborate one of the black lace had the upper part of the corsage covering the neck and shoulders with one thickness of black chiffon, with sleeves also of the chiffon. The black accompanying this was of white satin trimmed from the bottom to about the waistline with bands of black satin of graduated widths, the last being about an inch deep.

Using Bandanna Cottons.

The introduction of the Southern bandanna cottons has been one of the results of Americans looking to their own country for ideas to incorporate into French designs. A leading tailor of New York got in the Southern region the inspiration to introduce the brilliant cotton of the country into fashionable apparel. Nothing would more delight the Southern mills than a widespread use of the materials which they make in such beautiful designs and such remarkably good weaving.

An All-Day Crêpe Costume.
A crêpe de chine with a coat to match, both covered with a stitery done in a striking design, will serve for the street and for any indoor affair before seven o'clock.

Orchard Information

GOOD GRAFTING WAX

1. The most common formula is: Resin, 4 parts by weight; beeswax, 2 parts; tallow, 1 part. Melt together and pour into a pail of cold water. Then grease the hands and pull the wax until it is nearly white in color. 2. For use in cold weather, when the above will not work, take 6 pounds resin, 1 pound beeswax and 1 pint lard oil; apply this hot salt over the joints with a brush. It should be put on one-eighth of an inch thick. 3. For use in warm weather the following is used: Four parts of resin, 1 pound of beeswax and from half a pint to a pint of raw lard oil. Melt all together, gradually turn it into cold water and pull. The lard oil should be entirely free from cottonseed oil.

TO MAKE BORDEAUX MIXTURE

Copper Sulphate, Quicklime and Water Are Necessary Ingredients—Mix and Apply at Once.

The necessary ingredients for making bordeaux mixture are: Copper sulphate, 4 pounds; quicklime, 4 pounds; water to make 50 gallons.

Prepare the copper sulphate by suspending it in a gunny sack just below the surface of several gallons of water in a clean barrel. When the sulphate is dissolved, which requires three or four hours, remove the sack and stir into the barrel enough additional water to make exactly 25 gallons of the copper solution.

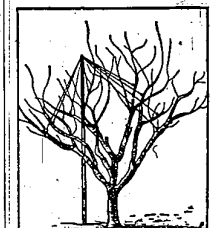

Prepare the lime by slacking it slowly and thoroughly in a clean barrel, strain, and add enough additional water to make exactly 25 gallons of lime milk. Stir thoroughly.

Pour the two ingredients together into another barrel, or better, directly into the spray tank, if it will hold 50 gallons. It is highly important to stir the mixture very thoroughly and to strain both ingredients before they are combined, as otherwise clogging of the spray nozzles might result. Use a copper or bronze wire strainer of 18 meshes to the inch. Do not put copper sulphate or bordeaux mixture into tin or iron vessels; use only wood or copper containers. Mix the bordeaux as needed and apply at once. It is never as good after it has settled.

PROP HEAVILY LADEN TREES

Various Methods Used in Great Apple Orchards of Washington to Protect Branches.

Out in the great apple orchards of Washington various methods are used for propping up the heavily laden trees. The one shown is known as the center pole and wire prop. When following this plan, screw-eyes are placed in the main limbs, and to these are

Apple-Tree Prop.

attached long strands of wire. At the end of each strand is a loop, which is placed over a nail driven in the end of a pole. This pole is raised to a position nearly parallel with the trunk of the tree and then firmly set in the ground. This has the effect of drawing the wires tight, holding the tree in shape and keeping the laden limbs from breaking under the strain.

HONEY BEES ARE NECESSITY

They Are Greatest Factor in Distribution of Pollen Among Fruits and Berries.

An abundance of honey bees is a safeguard to horticulture. They are the greatest factor in the distribution of pollen among fruits and berries. A few other insects carry pollen, but if all honey bees were removed during fruit-bloom season, it is safe to say that there would be not enough fruit or berries produced to pay for the savoring of the crop.

FINE LOCATION FOR ORCHARDS

Fruit Tree Near Dwelling Is Worth Fifty Local Mile Away—Farmers Are Busy People.

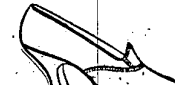

A single plum tree or early apple tree near the house is worth 50 a mile away. The farmer and his wife are busy people and do not have time to run over there every time they want a handful of fruit.

SPRING WALK-OVERS

FOR MEN

In white, tan, "hoko" tan, gray kids, gray bucks—black with light or dark gray buck tops and many other two-tone effects—all backs (patent leather or dull calf)—all lasts and the newest designs. \$6 to \$9

FOR WOMEN

In all-white, all-gray, all-black (patent leather or dull kid)—in fact, any desired color or color-combination; Louis heels if desired; hand-turned or welt soles; high-cut and low-cut; truly a fascinating list, and one in which any taste can be pleased. \$5 to \$8

Won't you come in when you came to Detroit?

The Biggest Little Shop

For Women and Misses in Detroit.

Style---Quality---Economy

We stake our whole reputation on the value of our goods at the prices at which we sell them. Our prices begin where quality begins. We do not sell cheap clothes, but find clothes cheaply.

Possible Because!

We buy model or sample garments in quantities. We buy them at a discount and retail them to you at approximately their wholesale price. We give you the benefit of our exceptional buying power, due to the many stores with which we are connected. We cut down the cost to you by eliminating the salaries of buyers and the terrific rental of ground floor space. Come in and allow us to prove these statements to you, and inspect our showing of smart and distinctive Suits—Coats—Dresses—Blouses. You will appreciate them.

Utmost in Garment Values—From the Most Noted Makers. Cordially yours,
