Worth While to Investigate The Chalmers

Chalmers price for a Chalmers car gets you more for your money than anywhere else.
At \$500 less it is inevitable that you must sacrifice many of the advantages you get in the Chalmers.
At \$500 more you merely get extra cost of production.
You do not get, we believe, any more value.
The Chalmers car is moderate in size, yet equal in comfort and carrying capacity to any other high grade car.
We can show you evidence of Chalmers supremacy that will surely convince you that it is worth your while to carefully investigate the Chalmers before selecting your new car.
Come in and let us tell you of the complete line and give you a demonstration of the Chalmers standard six-cylinder motor.
