BUY LIBERTY BONDS

From Your Future Earnings

- The lack of ready cash no longer keeps you from becoming a Liberty Bond Subscriber.

Liberty Bonds of all denominations can now be bought on an easy payment plan from any bank, bond salesman or bond subscription committee—2% down and 2% per week.

One dollar a week for 50 weeks makes you the owner of a \$50.00 Government Bond drawing 4 per cent interest.

Two dollars a week buys a \$100.00 Bond, and so on up to the larger denominations. Easy payment plans have been arranged for all.

See what a convenience this is. You buy bonds as you would keep a savings account, paying in whatever portion of your weekly income you can best afford.

You who are now saving on a systematic basis (and everyone ought to be doing this) should arrange to have at least part of your payments from now on applied to Liberty Bond purchases. The bank in which you now have your account will gladly arrange it.

Every boy and girl who has formed the saving habit should work from now on with the ownership of a Liberty Bond as their goal. And any boy or girl who has never learned to save should make this the occasion of getting a start.

Parents should encourage their children to buy Liberty Bonds on the easy payment basis. Any child who earns a little money after school running errands or doing odd jobs, or who receives an allowance, can afford to make payments on a bond of some denomination.

Every citizen owes it to his country to buy Liberty Bonds; Every citizen owes it to himself to save certain portions of his future earnings. Perform these two duties at the same time by making arrangements TODAY to purchase Liberty Bonds on the easy installment basis.

REMEMBER: Any bank, any bond salesman, any bond subscription committee will give you full information and take your order, relieving you of all troublesome details. DO THIS TODAY.
