Very Bad Taste, Workday.
We have always thought you witty, but now we have discovered that he is merely offensive.
The other day we told him that we were intending to bring out our poems in book form.
"All of 'em?" he asked.
"Well, practically all of them."
"Good," he granted. "That's putting 'em where they won't bother anybody!"

ALMOST HELPLESS

Mr. Reuter Went Through a Terrible Siege of Kidney Trouble. Doan's Back His Health.

"After an injury I was in terrible shape from kidney trouble," says Dr. Reuter, North St., West Chicago, Ill. "I couldn't sleep because of the awful pains in my back and the steady, dull misery almost drove me frantic. I had to be helped out of bed mornings, the pains across my kidneys were so bad and nobody knows the agony. I went through it. I couldn't do anything and was almost helpless. I selected Doan's Back His Health. The urine passed far too often and burned like scalding water. The passages were scanty and I had no control over them. At times everything in front of me grew dark and I couldn't see for several minutes. I perspired profusely and I was thirsty all the time. For two years I suffered, trying medicine after medicine without relief. I was just about discouraged and didn't think I would ever be able to work again."
"Hearing about Doan's Kidney Pills I used them and four boxes cured me. My kidneys became normal, my back got well and strong and all the other troubles disappeared."
Sworn to before me,

REGISTERED MEN TO BE CLASSIFIED

PRESIDENT ASKS NATION TO HELP IN GETTING STATUS OF ALL ELIGIBLES.

WORK WILL BEGIN DECEMBER 15

All Registrants Will Be Obligated to Fill Out Blanks So Government Can Place Them Correctly.

Washington—President Wilson formally put the new machinery for the carrying out of the selective draft bill into operation Saturday with publication of the first word he had written to the regulations under which the second call will be made.

The regulations themselves and the questionnaires, which more than 9,000,000 registrants will be required to fill out, have been forwarded to local boards.

New Call Next February.

War department officials estimate that the whole process can be completed within 90 days. This means that no second call will be made upon the draft forces before the middle of next February, as the period of classification will not begin until December 15th.

The president describes the new plan of dividing all registered men not already mobilized into five classes, subject to military service by classes, as being intended to produce "a more perfect organization of our man power."

Government Wants Status.

Under its terms the exact physical, mental, moral, social, commercial and industrial status of every registrant will be fixed. It will give the government data on how many shipbuilders, foresters, bricklayers, etc., are in the military and every other type of man power is at its disposal. Speedy mobilization and equipment of units for any war task will be possible, instead of the present haphazard system, under the old draft system. The new method will enable the government to exempt men with closer regard to the nation's needs in all lines.

"The selective principle must be carried to its logical conclusion," the president said, and he added that there must be made a complete inventory of qualifications of each registrant in the military, industrial or agricultural ranks of the nation in which his experience and training can best be made to serve the common good."

FATE PURSUED THIS TOMMY

Nearly Spent Bullet Goes Through Hole Made in His Helmet by German Sniper.

James Dickinson, a convalescent Canadian soldier, in a letter to a friend, tells this story of the great war:

During a lull in the battle of the Marne one of the Canadian troops took off his steel helmet, and plucked it on the end of his rifle, held it so that about half of it protruded above the top of the trench. A German sniper, observing it, at once shot at it, and the ball, striking it squarely, pierced the steel, going out the other side. The "Tommy" laughingly showed it to his comrades and placed it back on his head.

Fifteen minutes later the order came to "go over the top," and this same "Tommy" was among the first. He was also among the first to fall, mortally wounded.

It was discovered at the dressing station that he had been struck by a nearly spent bullet that had gone through one of the holes that he had so recently shown his fellow soldiers in laughter.

All There.

"Good heaven! The stir has forgotten his lines."

"Oh, well, the leading lady hasn't forgotten her lines. That gown she's wearing sets off her figure to perfection."

Unsubstantial Returns.

"Did you raise anything on your promise to pay?"

"Oh, yes; I raised a smile."

No fight is ever over until one side is at its quills.

Many Bibles Used.

Two million copies of the Scriptures have been placed in the hands of Chinese during the year according to the report of the National Bible society of Scotland. The report states that in Japan also, the circulation had been increased, and consignments of the Scriptures had been sent to France for the use of the labor battalions with the British troops. It was reported that the revised Japanese Bible had been completed and was in course of printing, and it was hoped that it would be in circulation by the end of the year. The revised Mandarin Bible, on which United States and British scholars and Chinese literary men had been working, would be completed by the end of the year. The field for its circulation was a very wide one, as it was estimated there were 300,000,000 people who spoke the Mandarin dialect.

Insurance in Australia.

State insurance in Australia shows gratifying results. It has been found possible to pay a bonus of 10 per cent on ordinary policies, and to make other concessions. Reserves are being built up and expenses met. This remarkable success is attributed to the very low expense ratio of the office, which is about 12 per cent of the net premium income.
