## Stop the "Snuffles"

If you want to make your distressed babies easy and comfortable, give Foley's Honey and Tar. It is just what they ought to have for feverish colds, coughs, "snuffles," whooping breathing. It stops croup, too. Foley's Honey and Tar tastes good and is the little case like it. It comes like it. It contains no morphine, chloroform or other drug that you wouldn't like to give to young children. Do not accept a substitute. Mrs. R. J. Jernett, Schoolfield, Va., writes: "My baby was stricken with a severe cough and cold one month old. I gave him ten boxes of Foley's Honey and Tar every three hours and it cured him of his cold. His baby's been well since."
