

# Sign and Display Lighting

An order of the United States Fuel Administration, effective November 15th, forbids the lighting os elec-

Before 7:45 p. m., or After 11 p. m., Excepting

that each business place or theater may light a pialusing over its entrance, showing the name of the firm or the name of the business of the theater and the show, and keep it included until the regular closing time of the store, bour after the show begins.

## NOTICE

No signs may be lighted on any excuse whatever until half an hour after sunset, which is street lighting time; nor after eleven o'clock lat night. There is no limitation of lighting between 1,45 and 11 p in bot we expect that later there will be limitation of excessive display.

The State Fuel Administrator is authorized to enforce this order. IWe invite all good citizens to choform to it at once,

"spend" in spendthrift," and only a "long pull and a strong pull and a strong pull and a strong pull and a strong pull and a pull altogether" will remove it and leave "thrift" free for action. No longer can it be a matter of choice whether we as individuals waste our sub-stance of money, time or strength. Personal efficiency has become a national duty. Per has become a national duty. Per-sonal efficiency depends on health, Much of the disease that has been accepted as inevitable is di-rectly due to ignorance and a ack of desire to learn. Men are still being rejected at the army camps, because of a disease that might have been avoided through proper knowledge of hygiene and sanitation. To achieve or conserve efficiency for the nation as a whole, we must produce strong and healthy men.

Michigan victims of tuberculosis during 1916, according the state department figures, num several hundred bered 3,005, more than an average year. Oak-land county furnished 29. The deaths, but that the disease is being better recognized by physicians. During 1916 the state tuberculosis survey was in progress, and it is believed that this caused a marked increase in interest in the disease and that tuberculosis survey was in progress, and it is believed that this caused a marked increase in interest in the disease and that hence many cases were truthfully given as tuberculosis that other wise would have been listed as something else.

There were 3,180 deaths reported in Michigan (during November, and 6,654 births. The Pontiac State Hospital reports 21 deaths. A decrease in deaths is noted as compared with October. There were also 555 less births in November than in October, 1917.
