### Teachers of Oakland County

We wish to call your attention to the fact of the national observance of Father and Son week February 11-17. To the teachers of our county this should be an opportunity for a closer acquaintanceship with the fathers of sons attending school.

We would suggest that brief appropriate exercises some day during the week, would be in order. A short talk by the director on the need of interest upon the part of fathers in the daily routine of the school, and a reply from some boy's father upon their appreciation of what the school is doing for his boy. Some older boy might be helped to express the need of greater interest on the part of fathers in the boy's life while in school. Invite the fathers to attend toward the close of the afternoon session, so that the father and son may return home together. Any emphasis that you can lay upon this observance by the above or other methods is sure to be of help to the school and

the community which it seeks to serve.

The commissioner would be glad to know of your activities in this regard.

A. CRAFT,

School Commissioner.

### Queen Esther and Standard Bearers
