Why Kidneys Kill

Because they are diseased. Two gland organs are necessary for good health. They must act as filters, cleaning the blood of the poisonous waste matter taken up as it comes through the body.
When the kidneys are weak and inactive they do their filtering work imperfectly. When they are weak and diseased they fail to do their task and the whole human body suffers from this poisonous blood.
FOLLY HIDDEN FILLS not just what is needed to make one weak, ailing, aching, shivering, sleepless, healthy active again.
Start taking Folly Kidney Pills today, and you will feel the difference. They will clean your blood, give you energy, and make you feel like a new man.
Folly Kidney Pills are the best.
