ADVANCEMENT IN WESTERN CANADA FARM LAND PRICES

Stories of phenomenal advancement and prospectify in Western Cannada have been told the reading public for some years past. The stories were told when there were, hundreds of thousands of acres of sphendid land adjacent to rallways and projected lines, which could be had on the payment of a more 810 entry fee, and had a continued the stories of the

That is a story from one district. Let us select one from a district some bin-dred or more miles from that.

"Peter A. Klassen, who recently moved to Herbert, Sask., from Kansan, has purchased a section of prairie land in the Hillsbore district, about 24 railes more statement of the property of the property of the property buildings of Herbert for exching temporary buildings to live in while puring the place in cultivation, and, this nummer plans to erect good buildings on the farm and equip lit for a home. Mr. Klassen recently sold his 80-acre farm in Kansan for \$15.000 and is investing the proceeds in Canada. With the proceeds of the saie of his land in Kansan, this farmer purchased larges as he had previously been farming, and had a bulance with which to purchase equipment, stock, etc., of \$3,500. Moreover as land in Saskatchewan may be expected to yield wice as much grain per acre, he will be able to produce sixteen time as much as formerly.

to produce arreed times as much as formerly.

The average value of farm land for the whole of Canada, including land improved and unimproved, together with dwelling houses, barns, stables and other farm buildings, is approximately 344 per acre as compared with 441 in 1916, according to the latest report of the Census and Statistics branch at Ottawa. The average value of land in the Prairie Provinces is as follows:

Manitoba \$31.00 Saskatchewan 26.00 Alberta 28.70

Albertu List the low prices at which land can be obtained in Western Canada who madering this country such and to the production of toodstuffs at the present time. It is enabling men who have been farming small areas in older districts to take up and farm with the same capital areas not only many times as great, but which are also capable of producing considerably larger crops to the acro—Advertisement.
