Given His Freedom

Joseph M. Smith, who was picked up by the local officers a short time ago and detained at the county jail on account of not having a classification card, with him, was released yesterday, his wife coming from Flint with the card.—Press Gazette.

The above refers to the young man who was picked up on the streets of this village last week Tuesday, after he had been roaming about town all day.

Smith told a number of different stories at the time and made an attempt to escape when picked up, and it was thought best to take him to the county jail until his identity could be established.

This should be a warning to every young man in a deferred classification to always carry his identification card with him.
