School began Tuesday. Teachers for ensuing year are Dwight C. Bowen, superintendent; Helen M. Townsend, principal; Gertrude D. Seaton, English history; Emma M. Johnson, music and drawing; Margaret Weiler, 8th grade; Ida Barley, 7th grade; Helen H. Houseworth, 6th grade; Wella Ellsworth, 5th grade; Florence Schoultz, 4th grade; Ruth H. Clark, 3rd grade; Iola Matthews, 2nd grade; Marjorie North, 1st grade; Jessie Duncan, kindergarten.

DOING WITHOUT WHEAT Bread and milk make a meal; so milk and milk.

Bread and gravy go together; potatoes and gravy are just as nourishing.

Toast and fruit are fine for breakfast; but any other cereal with fruit will stay the stomach as effectively.

Griddle cakes, muffins, all sort of quick breads, can be filled and appetizing without any wheat.

There is one test. Whenever bread is used for convenience, that is the place to leave it out.

This paper has enlisted with the government in the cause of America for the period of the war

NAIL IT DOWN

Every false story told about anyone doing war work must hurt that worker and the work. Every time such a worker or his work is hurt, to the same degree the Germans are helped.

Did you ever figure it out just that way? Did you ever realize, that every time you repeat a false story, you are doing that much to help the Germans?

If you had, would it not have made you very careful what stories you repeat? You would certainly want to be absolutely sure that the story was true before you opened your mouth.

And how many of the stories floating around do you know to be true?

FOURTH LIBERTY LOAN

The campaign for the Fourth Liberty Loan begins September 28 and closes October 1. While the amount has not yet been announced, it is generally conceded it will be for a larger amount than any of the preceding loans.

The American people, therefore, are called upon to raise a larger sum of money in a shorter length of time than ever before. There is need, therefore, for prompt action—prompt and efficient work and prompt and liberal subscriptions.

We have a great inspiration for a great effort. The news from the battle front inspires every American heart, not only with pride and patriotism but with a great incentive to do his or her part.

There is no shirking, no shifting of the individual burden, no selfishness by American soldiers in France; there should be none here. We are both supporting the same cause and the same army in one way or another. There is the harder part, but at least we can do our part as promptly and loyally and efficiently as they do theirs.

Anyone who does not believe that advertising pays is cited to the vote received at the recent primaries by Truman H. Newberry. The result of that vote was brought about almost wholly by advertising—clear, clean, consistent and persistent. The campaign is designated as one of the most effective ever carried out.

RIGID SAVING IN FOOD ASKED

Allied Directors Say Situation Now Good But Must Plan For Future.

LARGE RESERVE IS NEEDED

New York, Aug. 1.—The federal food board made public Thursday night the text of a joint resolution adopted by the food controllers of the United States, France, Italy and Great Britain and received from abroad from Federal Administrator Hoover with the request that it be given "wide publicity." The text follows:

"Resolved, That while the increased production of the United States renders it possible to relax some of the restrictions which have been made, the peculiar hardship on all people it is absolutely necessary that rigid economy and elimination of waste in the consumption and in the handling of foodstuffs as well as increased production should be maintained throughout the European allied countries and North America.

"But it is only by conservation and elimination of waste that the transportation of food supplies from North America to the European front can be accomplished and that stocks of foodstuffs can be built up in North America as an insurance against the present danger of harvest failure and the possible necessity for large and emergency drafts to Europe. We cannot judge the food problem on the basis of one year's war. We must be prepared for the emergency we are so sure to have absolute prosperity."

A WORD TO PROFITEERS

By President Wilbur of Stanford University.

This is no time to talk of money or of profits, for the world is using a new medium of exchange today. In order to obtain that liberty, freedom and justice which it demands, the medium of exchange is the precious blood of men and boys, the heat that we have, and we are sending them by the hundreds, yes, the hundreds of thousands. They go forth singing: "As He died to make men holy, let us die to set men free." The man who comes out of this war with one dollar more than he had when it began has taken it from the blood of the men who died for him. May God forgive him! The American people never will.

Probate Order

Order Appointing Time For Hearing Claims. STATE OF MICHIGAN. The Probate Court for the County of Oakland.

When the housewife commences to think of meal time and its preparation she invariably thinks of SCHROEDER who always carries the best of Meats, Lard, etc. Try it once and you will too! Phone No. 5 Farmington

The Fordson Tractor The Fordson tractor, manufactured by Henry Ford & Son at Dearborn, Michigan, is here. Hundreds of farm owners in this community will be interested in this announcement—in knowing that Fordson tractors are ready for distribution. The urgent, need for greater production and the vital necessity of employing mass-saving machinery in farm work, as appears to everyone. Remember these immense tasks ahead, the coming of the Fordson is of importance to every farm owner at this time.

The Oliver No. 7—the Plow for the Fordson Oliver No. 7 has been built for the Fordson. Henry Ford & Son recommend it as the plow that will do the best advantage with their machine. Oliver No. 7 is strictly a one-man machine. A trip-lever right at the operator's hand raises or lowers the bottoms. An even depth adjustment lever is right at hand, too. You will appreciate the high clearance of plows and beams because they save time and annoyance—just as the rake between bottoms prevents clogging with trash and makes every second of operating time count in plowed ground. The Oliver No. 7 embodies principles of plow construction founded on sixty years of making plows, of intensive study of every existing soil condition—constant attention to the plow requirements of the tractor-farm the tractor industry began. Come in and see this complete—the Fordson and the Oliver No. 7 Plow.
