Some "bad" boys went into F. M. Warner's melon patch, picked and threw around the fields, all of his melons. The melons were all green and did nobody any good. Mr. Warner said if they had only waited until ripe, he would gladly have given the boys a part of them at least.

Liberty Bond Conversion

4¼ per cent for 4 per cent

All holders of 4 per cent Liberty Bonds have the privilege of converting them into bonds bearing the 4¼ per cent of the Third Loan.

The Government desires, to avoid congestion, that this action be taken promptly as the Conversion Privilege expires November 9, 1918.

For the convenience of holders of these bonds in this section, this Bank has made arrangements whereby you can secure the 4¼'s without red tape or expense of any kind. Simply bring in your 4's and we will hand you the 4¼'s in exchange.

We appreciate the anxiety of the holders of Coupon Liberty Bonds over the safety of their securities and realize the increasing hazard each succeeding Loan will create.

In accordance with our Policy of extending every service possible to the public and to further the sale of future issues we will be glad to relieve you of your worry in this connection.

Without any charge whatever, we will accept responsibility for the safe keeping of your Liberty Bonds, returning bonds at any time desired.

Whether you are a customer of ours or not we offer you this service.

Under our plan there is no need to rent a Safety Deposit Box to secure from Fire and Theft your Liberty Bonds.

Get ready now for the

Fall Rains

Do your roof gutters and leaders need repairing? Look them over carefully now, and if they are not in good condition call on us. We will give you a low figure and do the job right. It doesn't pay to let your tinning get in such bad shape that your house will be damaged. Cheaper in the end to have us do the tin work up or replace it entirely.

We also do all kinds of Sheet Metal Work.

WAY & ADAMS

Mr. Dairyman, don't neglect your cows with the present price of milk. We can furnish you, in ton lots.

If Men Kept House

There'd be an Electric Washer in every home in this village.

A man would not stand over a hot tub of wash suds and Rub, Rub, Rub for six long hours when the Electric Washer would do the same work in two hours. "Not on Your Life!"

THE ELECTRIC WASHER

is a necessity, an economy and an investment in health and good housekeeping. Don't expect your wife to do anything you wouldn't, Mr. Man.

PATRIOTIC SERVICE

COOK'S

PATRIOTIC SERVICE

Hardware and Furniture

TO OUR PATRONS AND FRIENDS:—

Owing to the war conditions and the scarcity of help, we have this week sold our entire stock of Dry Goods and Groceries, retaining the

Hardware and Furniture

business, and will put our best efforts forth hereafter to make this section of the business what it should be, a trading place of pleasure and profit to all our customers, and as in the past, solicit your patronage.

We will carry a full line of Hardware and Furniture, with prices that are right.

Thanking you for favors shown us during the 13 years we have been in the general merchandising business in Farmington, we remain

Yours respectfully,

FRED L. COOK & CO.

Farmington, Michigan

More Farm Buildings

Are Needed to Win the War

THERE are two things to which this nation has pledged itself in this great war—one is to stop waste, and the other is to exert every ounce of energy and ability toward PRODUCTION—and even more than anything else, PRO-

DUCTION OF FOOD STUFFS. THE farm therefore, that is doing its full patriotic duty, is the farm which is conserving the most feed—and raising the most hogs and beef and milk and corn and wheat per acre.

BUT no farm can produce its maximum unless properly equipped

THE farmer who is not giving his hogs proper protection is not getting as many litters not as large litters as he could if his hogs were properly housed.

FEED, which stock in the open require for animal heat, would go, into beef or milk if the stock were kept in a properly built, well ventilated and insulated barn.

AND after all, isn't the time spent in repairing machinery after it has lain exposed to the weather all year waste?

THERE never was a better time to build your barn or your hog house or your implement shed or your granary than right now. Lumber is NOT high. A hog or a bushel of wheat buys more lumber now than it has ever bought before—more, perhaps, than it will buy later when values again readjust themselves.

WE have a large and a very desirable stock of all kinds and grades of lumber and material and can give you excellent service.

Everything needed will be found at our Yards
