"DON'T WORRY ABOUT CANADA"—PRESCOTT

THE DOMINION IS DOING ITS FULL PART IN FOOD CONSERVATION.

GERMAN RUMORS SAY DIFFERENT

In many ways Our Canadian Neighbor Far Excel Us in Regulations to Save Foodstuffs.

Lansing, July 4.—"Pro-German propagandists have been more busy than ever, since January 1, 1918, trying to circulate rumors in America that will undermine the faith of the people in their government. The German propagandists were successful in Italy and in Russia. The results of their work are only too well known. Such propaganda must be carefully fought in America," says Food Administrator, G. A. Prescott.

"One of the systematic plans of propaganda since the German offensive of March 21 has been the circulation of rumors tending to discourage faith in Canada and her participation in the war. The rumor of interest to the Food Administration, and repeated in Michigan until it has become a dangerous rumor, is that Canada is making absolutely no effort to conserve food."

The Food Administration in Michigan, to combat the effects of this rumor, made a thorough investigation and has received scores of letters and bulletins from Canadian diets. This information is given herewith that you may be able to stop the repetition of this rumor in your community.

Here are a few of the facts about Canadian food conservation:

1. A penalty is provided for "proprietors of hotels, clubs, restaurants, cafes, steamships, dining cars, and managers of institutions, church societies or lodges, private householders, or other persons who destroy or discard good food; also to wasteful picnics parties or travellers; also to hunters, fishermen, etc., who neglect to save game or fish secured by them."

2. Penalty is provided to persons who allow food to spoil, if it could be saved by cooking, canning or other treatment; also to careless and wasteful cooks; also to farmers, gardeners or other producers who neglect to protect grain, produce or other food against deterioration or loss; also to merchants who allow their fruit or other food to spoil by exposure in windows or open to flies, that moisture, etc.; also to persons who, through careless storage, leave food accessible to rats, mice, or other vermin; also to handlers who cause waste by careless packing or shipping; also to public or private carriers, who negligently and cause waste or deterioration.

3. No pure wheat flour is being manufactured in Canada. Mills in Canada are grinding the whole wheat grain into "war flour."

4. No person is allowed to have more than fifteen days supply of flour on hand in a town; thirty days supply in the country. The same applies to sugar.

5. Sugar bowls are not allowed on the tables of hotels and restaurants.

6. Use of sugar for candy, icing, etc., is restricted. Candy manufacturers are allowed only fifty per cent of last year's supply.

7. Canada now has two meatless days each week.

8. The use of war flour more than matches our wheatless days in America, according to the claim of some Canadians. Wheat flour substitutes are not produced in Canada since the absence of a fifty fifty rule there.

9. Farmers have been ordered to market their surplus wheat, just the same as American farmers have been ordered to do.

10. The use of war flour more than matches our wheatless days in America, according to the claim of some Canadians. Wheat flour substitutes are not produced in Canada since the absence of a fifty fifty rule there.

MARCHING ON TO PALESTINE

For the First Time in Nearly 2,000 Years Jews Are Able to Fight Under Their Own Flag In Defense of a Land of Their Own.

This is a picture of some of the volunteers of the Jewish Legion marching down Fifth Avenue, New York City, on their way to the training camp in Canada. They are carrying two flags—Old Glory—and the Jewish flag, blue and white, with the six cornered star of David in the center.

[The capture of Jerusalem by the British forces has enabled the Anglo-Palestine Bank to resume its operations. The Zionist Organization of America has forwarded to it \$100,000 to meet immediate obligations. The British military staff has indicated it to open branches in Jaffa and other parts of Palestine and has commissioned it with the task of buying supplies for the army.]

Back the Government to the Limit

The Government has asked American business to pursue a certain course for the duration of the war.

Keep quality up and prices reasonable, —a strictly non-profiteering policy. It is the only patriotic policy.

It is the policy this company has always adopted and the one we will continue to pursue.

We stand ready to undergo any sacrifice in order to cooperate with the Government. We believe it is best for ourselves.

We know it is best for our country.

We appeal to all concerns—big and small—to adopt the same policy.

American business must rally as a unit to the support of the Government.

It is the surest and quickest way to win the war.
