ELECTION DAY

Next Tuesday, November 5th
is election day, and your duty
to your government is as im-
portant on that day as any you have
performed since the war began.
If you don't get out and vote
next Tuesday you are just as
much a "slacker" as though you
had purchased no bonds, given
no money to the Red Cross or
other patriotic government ap-
peals.

Your government demands
your choice of a United States
Senator next Tuesday, a govern-
or of Michigan, congressional,
legislative and county officers,
and you are in duty bound to
express your choice at the polls.
"Don't let George do it," but
do it yourself—be 100 per cent
American.

West Farmington Items

Mrs. John Morris and daughter
Caroline spent Monday in De-
troit.

Mr. and Mrs. George Groner,

Get ready now for the

Fall Rains

Do your roof gutters and leaders need repairing?
Look them over carefully now, and if they are not in
good condition call on us. We will give you a low
figure and do the job right. It doesn't pay to let your
tinning get in such bad shape that your house will be
damaged. Cheaper in the end to have us doctor the
tin work up or replace it entirely.

We also do all kinds of Sheet Metal Work.

WAY & ADAMS

4% On Savings

"It is manifestly imperative that there should be complete mobilization
of the banking reserves of the United States. * * * The burden and the
privilege must be shared by every banking institution in the country. * * *

"May I not, therefore, urge upon the officers and directors of all non-
member state banks and trust companies which have the required amount
of capital and surplus to make them eligible for membership, to unite with
the Federal Reserve system now, and thereby contribute their share to the
consolidated gold reserves of the country? I feel sure that as member banks
they will aid to a greater degree than is possible otherwise in promoting the
national welfare, and that at the same time, by securing for themselves the
advantages offered by the Federal Reserve system they will best serve their
own interest and the interest of their customers. I believe that cooperation
on the part of the banks is a patriotic duty at this time, and that member-
ship in the Federal Reserve System is a distinct and significant evidence of
patriotism.

"There are probably eight or nine thousand state banks and trust com-
panies eligible for membership which have not yet united with the system.
These institutions have it in their power to add enormously to the resources
of the Federal Reserve Banks, thereby broadening and strengthening the
foundation upon which our whole financial structure must rest. Permit
me to urge that every bank officer and bank director owes a solemn obliga-
tion to the country, which I am sure they wish to discharge. I, therefore,
wish again to impress upon them my solemn conviction that they can best
measure up to their duties and responsibilities through membership in the
Federal Reserve system."—Extracts from Letter of President Wilson.

The Directors of the Farmington State Savings Bank, re-
sponding to the call for Banking Unity as set forth in the
foregoing words of our President, and knowing that through
membership in the Federal Reserve System, a state bank is
assured of greater safety for its depositors and stockholders
than when operating as a nonmember bank, not only as to
repayment of deposits, but also as to its ability to continue to
grant accommodation at all times and especially in the midst
of war time conditions, made application some time ago for
admittance to that system.
We are glad to announce at this time that our application has
been favorably acted upon, and we have been officially noti-
fied that we are accepted into full membership of the Federal
Reserve System of the United States.

It is our unvarying aim to render the best banking service possible to
Farmington, the surrounding country and our government. Toward this
end, during the past year we have handled over \$370,000.00 in Liberty
Bonds and United States Certificates of Indebtedness. We have endeav-
ored to make it easy for you to pay for your bonds, and have offered you
our facilities for their safe keeping after you have secured them. We now
offer you the greater protection for your deposits that membership in the
Federal Reserve System affords.

We thank you for the liberal patronage, which during the past year
has resulted in largely increasing our business, and assure you of our un-
ceasing efforts to merit your confidence, and thereby your business.

The Fordson Tractor

The Fordson tractor, manufactured by Henry Ford
Co. Son at Dearborn, Michigan, is best.

Hundreds of farm owners in this community will
be interested in this announcement—in knowing that
Fordson tractors are ready for distribution.

The urgent need for greater production and the vital neces-
sity of employing man-saving machinery in farm work is apparent
to everyone. Remembering these important facts ahead, the
coming of the Fordson is of importance to every farm owner
at this time.

The Oliver No. 7—the Plow for the Fordson

Oliver No. 7 has been built for the Fordson.

Henry Ford Co. has recommended it as the plow that will work
to the best advantage with their machine.

Oliver No. 7 is really a one-man machine. A tiny lever
right at the operator's hand raises or lowers the bottom. An
even depth adjustment lever is right at hand, too.

You will appreciate the high clearance of plow and beam
because they save time and annoyance—just as the rate be-
tween bottom prevents clogging with trash and makes every
second of opening time count in plowed ground.

The Oliver No. 7 embodies principles of plow construction
founded on sixty years of making plows, of intensive study of
every existing soil condition—constant attention to the plow
requirements of the tractor since the tractor industry began.

Come in and see this complete unit—the Fordson and the
Oliver No. 7 Plow.
