Do a juggling act and enjoy life more

In the Tarot cards, which we discuss so fren in this column, the Fool card repre-ents each one of us as we innocently start ut on our journey through life. The other ards, the numbered ones deput start sons with which we must meet and deal

with which we must meet and usus journey, us journey, e of the most interesting of those six the two of coins, or pertacles re we see an individual meased in ing two cours held together by an end-cord. The river of tile flows on behind and there we see ships inding the exception.

him and there we see ships two may be saves.

This card distracts the cycles of change at work in the world the natural fluctuation of fortune which must be aboved for when planning anead.

means adapting to the changes in the ele-ments around us.

In the it is often necessary, to handle too situations to the necessary to handle too situations are in reposition at a the situation of the proportion of the con-traction of the proportion of the con-traction of the proportion of the con-traction of the contraction of the con-traction of the contract

tions.

But think how dull our life would be if
