

Ventura: The only American compact you can get with a 4-cylinder engine—from Pontiac, of course.

If anyone else were to offer you a four in a compact-sized car, you might hesitate.

But this is a Pontiac. Our beautiful little compact Ventura.

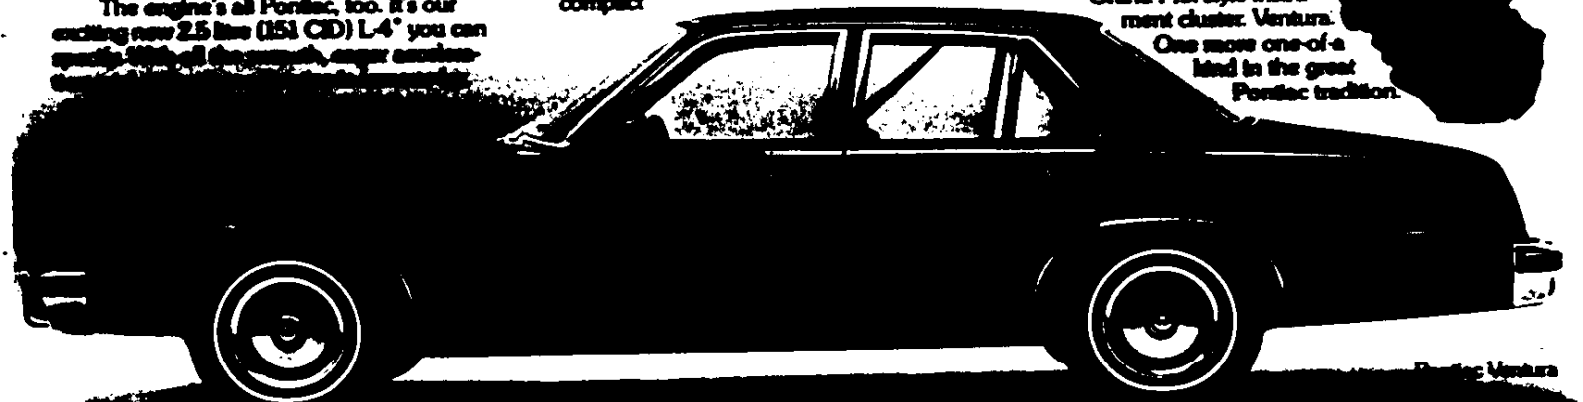

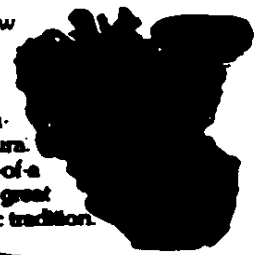

The engine's all Pontiac, too. It's our exciting new 2.5 liter (151 CID) L-4* you can specify with all the smooth, eager acceleration of a V-6.

sluggish about Ventura's looks, either. You get a new, richly detailed grille. Elegant lines. And beautifully sculptured rear styling.

Inside, it's everything you'd expect of a compact

from Pontiac. With new ribbed full-width seats. New deluxe cushion steering wheel. And a Grand Prix-style instrument cluster. Ventura.

One more one-of-a-kind in the great Pontiac tradition.
