TROY WOODWARD, IDS Assoc.

**IDS**

All of our interior designers are professionals and members of The Interior Design Society. Each has the knack of putting those ideas you have in your mind all together within the confines of your home ... the richly dramatic or the quietly serene ... the understated and simple or the adventurously exotic. Each knows how things can be mixed or matched effectively, even with what you already have, to make rooms that will suit your tastes, your needs and help you live better. If you want some plain talk about your decorating problems, call one of our Designers ... each has the knowledge and experience to achieve the improvement of your home within the budget you have planned. Remember, when a Towne & Country Designer goes to work for you ... their services are at no extra cost ... we're ready to go out of our way to help you with your decorating problems.

Use our convenient charge plan: BankAmericard or MasterCard
