Now, a new car haver doesn't have to pay as much each month to buy a new car. The smaller parameter are make possible by a plan called Adrivest or which the new car buyer subtrants the value of the car two year plane from the lost of the car two years and if a car should be worth \$1,800 is two years and on the start billion than \$1,500 is two years and one of the certal year be can at the car, at the ear of the second year be can at the car, at the ear of the second year be can at one of three things.

**Roll the car, pay off the predetermined two years who is and pasket the interest producer and the value of the certal year be car to the dealer and tened to year who is and pasket the deference.

**How the ear is the dealer and canced the dealer.

Art M cont Bentan or Southfield is one of fave dealers by or the acts offering the Autovest procure.

**Bo other big advantage is that you are not a keep the pasket was a subject to the second year the pasket than the same of the car is the dealer and the value places because of gestions that age where the pasket than the car are the same places because of gestions that ages were could return the ear after the year and the value places because of gestions that ages where years and the value places because of gestions that ages were could return the ear after the year and the value places because of gestions that ages where years and the value places because the processing the leave route is less expectations.

Be offered the dealership for two months. The interest rate for an Autovest value of the car is year. In the dealer and the value of the production and the pasket places because the same of the warrant of the places because the pask that we are not as well an other areas but the finish was a supplied on the leave acer as often as no other than the pask that the car is the pask that t
