Cable TV benefits seen for teaching purposes

Researchers at Michigan State University will soon be disministrating felexisism. Dr. Thomas Bakkisti one of the three in-seasy cable three dry in the state of the State of

and computer teaching systems linked by two-way cable. Funded by a \$400,000 National Science Foundation (NSF) grant, the experiment could help to determine the future uses of two-way cable TV MSU's project located in Rockford, II., will provide part of the daily training of

Tuition up at state colleges

Tution at Michigans 42 public two-year and four year colleges and universities is up 43 per cent this year, the state board of education has reported it marked the 11th straight year that fution has give up. The static board say that fution 4Michigans 48 private colleges and universities has increased by time per cent compared.

has increased by the general compared to last year. On last year, but has stated along one of 18 four year public colleges strongers and the colleges strongers and less and room and r
