A fast their released by the Kidnes Foundation of Michigan lists the latest findings and statistics on high blood pressure. The sheet states that high blood pressure much more common than generally believed and will kill about 20,000 persons in the US in the next year. It can strake anyone relaxed persons as well as tense though the risk of developing high blood pressure is nearly taken.

as high for blacks, than whites. It can lead to stroke hour attack, kd-ney dynase and premature death, and it more than doubtes the risk of stroke and least house than doubtes the risk of stroke and least house proposed to some analysis of the least house proposed to some analysis of the stroke and the some stroke hours. Frope with have d wouldy feel as health, as those with it must be of previous.

In Detroit, 240,000 people have high blood pressure and an estimated 51 per-cent don't know it. Only 9 per cent are under treatment, yet it is the most con-trollable cause of kidney failure. unin 15 taken on a regular basis of remaining the part of the remaining the part of the remaining the remaining
