The guest artists are all between four and 10 years of age and live in Novi, Northville and Plymouth. They play the violin according to the Suzuki method, developed by Japanese violinist, Shinichi Suzuki.

Cathy Keresztesi, of Ann Arbor, is their director-teacher. She has her degree in music education from Eastern Michigan University. She was trained in the Suzuki method and has taken part in various Suzuki workshops.

For the March 2 program, she will give demonstrations of the technique of teaching violin to very young children, and will hold a question and answer session.

Part of the Suzuki philosophy is that children develop into better and more alert adults through music. The method stipulates that the parents become deeply involved in teaching their children the violin. Ear training and posi-

tive reinforcement is an integral part of the method. Tea chairman for the day will be Mrs. Gene Manwaring.
