## The lively needle

## Pin of luck of the Irish

By MARY KAY DAVIS
On St. Patrick's Day it seems that
everyone is Irish, if not by descent
they by desire. If you plan to have a
title green in your heart on March 17,
here's a needlepoint shanrock to perk
tup' your wardrobe.
The finished pin measures two
inches from tip to tip and can be completed in two hours from start to finish

inches from up vo.p.

inches from start to finish.

You'll need a four-inch square of 14 gauge interlock needlepoint canwas, a tapestry needle, yarn and a bit of polyester fiber fill for stuffing. I used green and white stranded needlepoint yarn, but light and dark green would be effective too. Use the number of yarn stands necessary to cover your canvas threads. Work the three green leaves as diagrammed. Don't stilch the stem yet.

Work the upper right corner of the background as it is diagrammed, but he Hongarian stilch. Then turn the emais upside down and stilch your lower right corner. It will be an up-

side down version of the upper right.
Continue turning and stitching corners until all four are completed.
Work one row of green continental stitch around the outside of your square.

YOUR SHAMROCK will be centered within a diamond of unworked
canvas. Stitch that diamond in the basketweave or diagonal tent stitch. Use
white or light green yarn.
Take one strand of dark green wool
and work the shamrock's stem over
the white basketweave, using the
chain stitch. Place the stitches as diagrammed, and your necellepoint's
done.

grämmed, and your neediepoint s done.

To finish, cut off excess canvas, leaving four unworked canvas threads on each side of the square. Fold all raw canvas edges to the back. Crease the folds on the rows of continental stitch.

Now fold your needlepoint square in Mow fold your needlepoint square in square ended cance. Stitch together the short, bow ends with an overcast

Here's how to stitch your shamrock pin and how it will look when finished. (Staff photo)

## Doctors to talk on estrogen

The March program in the Community Health Education Series, sponsored the Providence Hospital Series of the Providence Hospital Series of the Providence Hospital Series of the Law of estrogen by women over 40. The program is scheduled for 7:30 pm. Monday, March 7 in the Fisher Center auditorium of Providence Hospital, 18001 West Nine Mile Road. Southfield.

The guest speaker will be Dr. & Charles Series of Surgeons (Canada). Other speakers will be Dr. Murray Nother Series of Surgeons (Ediption, Chairman of the Family Practice Department, and Dr. Gary ward Cashman, immediate past president of the Providence medical staff

or satin stitch. Line up your holes and begin stitching at the outside corners. Sew through both layers at every other hole, covering both the edges and the continental staches. Sew up the stern end in the same way.

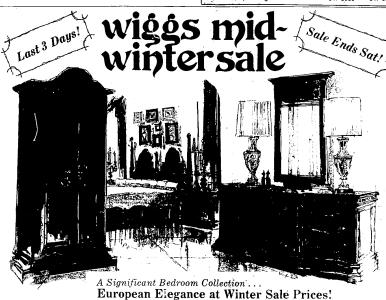

NOW PUSH the outside corners of the bow and stem together until they touch, and tack them. Your stitch will be in the center of a cross made of two open and two closed seams. Sew together one of the open seams. Push a very little stuffing through the remaining open seum and shove it to the edges of the little pillow. If you want to more stuffing. If you want it indented

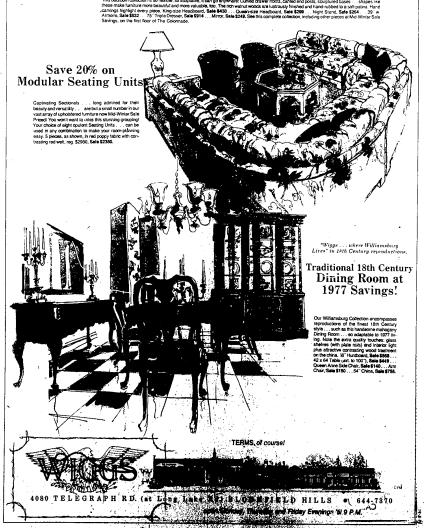

in the middle, stitch the front to the back with one French knot worked through the center hole. Sew up the remaining seam.

Attach a pin to the back and pin it to your collar. Or sew a small ring to to your collar. Or sew a small ring to your collar or sew a small ring to your collar or seem a cord or you have been seemed by the collar or you have been seemed by the collar or the power.
