

United Foundation goal— to raise \$22.1 million

Three hospitals and five other agencies in suburban Oakland County would benefit if the United Foundation successfully raises \$22.1 million in pledges in a capital fund campaign this spring.

The list was revealed by Richard L. Terrell, of Birmingham, who has been named campaign general chairman. Terrell is vice-chairman of the board of General Motors Corp.

This once-in-six-years capital fund campaign will be directed at 1,800 business organizations and foundations. Unlike UF's annual Torch Drive, no individuals will be solicited. The Torch Drive also raises only operating funds.

Altogether, 54 voluntary agencies and non-profit hospitals in Wayne, Oakland and Macomb counties would receive capital funds for new buildings, renovations and equipment.

OAKLAND AGENCIES or branches to receive allocations will include:

• Beaumont Hospital, 3001 W. Thirteen Mile, Royal Oak—alteration and renovation of the main facility. UF to contribute \$800,000 toward a total project cost of \$4.1 million.

• Hurstwood General Hospital, 2905 Grand River, Farmington Hills—expansion of laboratory, X-ray department, emergency room, medical records and administrative areas. UF to contribute \$250,000 toward \$6.45 million total project.

• Providence Hospital, 16001 W. Nine Mile, Southfield—renovation and expansion of the radiology department. UF to contribute \$1.5 million of total \$3 million project.

• Boys Republic, 26000 W. Nine Mile, Farmington—repairs to the building and bridge. UF's share is \$43,500 of total \$16,900 project.

• Girl Scouts—Northern Oakland County Council—sanitary facilities, camp shelter, multi-purpose health center facility at Camp Sherwood; new tractor. UF's share is \$80,400 of \$130,000 in improvements.

• Girls Scouts—Southern Oakland County Council—renovation, development and major maintenance at Camps Narrin and Yntema; purchase of three mobile units for summer programs. UF to contribute \$84,500 of total \$144,500 project.

• Jewish Vocational Service and Community Workshop—construction of a south Oakland County satellite facility.

RICHARD L. TERRELL
Heads UF capital drive

city. UF's share \$276,500 of total \$750,000 project cost.

• YMCA of Metropolitan Detroit—construction of complete, comprehensive facility in Farmington, improvements, renovations and maintenance in other tri-county facilities in Birmingham and Royal Oak. UF's share of million of total \$8.7 million in projects.

• YMCA of Metropolitan Detroit—renovations and additions to the Oakland branch at Clawson, renovations of other branches, development of Camp Cavell. UF to contribute

\$745,000 of total \$2.9 million in projects.

ALTOGETHER, UF would contribute \$22.1 million to nearly \$192 million in agency projects.

No other major American city conducts an area-wide united capital appeal the size and scope of the United Foundations capital fund division campaign," said Terrell.

Funds pledged to the capital fund division for construction and renovation that will be undertaken in the same period.

Two earlier capital drives, in 1966 and 1972, raised a total of \$41.2 million for more than 100 hospital and agency projects in the tri-county area. Terrell was a group chairman for the 1972 capital campaign. He has been active within the Torch Drive leadership structure, serving last year as chairman of the automotive manufacturers unit.

A native of Dayton, Ohio, Terrell joined GM in 1937 as a member of the photographic unit in Detroit.

He became vice-chairman of the board in 1974 after serving as a director and as executive vice president in charge of car and truck body and assembly divisions group since 1972.

Terrell is board chairman of the Motor Vehicle Manufacturers Association, a member of the National Industrial Energy Council, chairman of the board of General Motors Institute, Flint; a trustee of the University of Dayton, a member of the UF board and nominee as corporate member of the Boys Clubs of Metropolitan Detroit.

Art education fund announced

The Michigan Council for the Arts has announced that a new grant program, Arts-in-Education, is being made available for 1978, contingent upon legislative support for funding recently recommended by Gov. Milliken.

According to Michigan Council for the Arts' Education Coordinator Donald Green, the pilot program is designed to involve people of all ages in innovative arts activities which go beyond the traditional school arts curriculum. The program will also explore ways in which the arts and artists can become an integral part of the education process.

Green pointed out that this program is intended to provide funding for pilot activities and not for support of current programs or the restoration of programs dropped due to lack of funds.

Deadline for the submission of applications for projects taking place in 1978 is May 27. Grants will be awarded in amounts over \$2,500 but not to exceed \$20,000.

Further information, guidelines and application forms may be obtained from the Michigan Council for the Arts, 1200 Sixth Avenue, Detroit 48226, telephone 256-3495.
