PRINT

As warm weather approaches, fashions will show a flash of bright colors, new print looks and versatile clothing that stretch wardrobe dollars.

The distaff side can look to the Jean Cacharel collection of summer dress for the print look. They settle anywhere from knee to ankle depending on their shape and style.

Printed fashions spice up a man's spring and summer wardrobe from lounge-wear to sportswear. From the classic gentry look to trendy separates, prints come in a variety of updated patterns.

Engineered prints offer imaginative patterning in knitted and woven shirts, which double for sport or dress. Plaids and stripes

with contrasting yolk patterns printed into the fabric are the new shirt looks.

Paisley and geometric prints are popular for shirts. For those who prefer the gentry look, neat checks, stripes, tattersalls and plaids offer a touch of casual elegance.

Off duty loungewear, is print oriented as well, offering an option in casual dressing. Loungewear tobs double as outerwear or shirts. Printed caftans cover the home front as well as the beach.

For women, Cacharel is heavy on sundresses this season, along with the brand new sassy culotte dress, a seductive hooded burnoose, a side slit ankle-length party robe, and a great variety of casual daytime dresses.

The printed look comes in their fabrics of hand-kerchief, cottons, madras stripes, liberty florals and bold box plaids.

Leslie Fay treats print in an entirely different way, splashing white brush strokes boldly over a dark brown or blue polyester gown in soft, flowing empire style.

The same strokes adorn the coordinating stole, and the scoop neck and waist are gathered.

Brush-stroke print trims a polyester gown in soft, flowing empire style.

Cacharel teams a floral print shirt with short shorts and a vest, all in cotton.
