

Rite of spring

It's car-cleaning time

It's car-cleaning time

The car that weathered the big winter storms of '77 deserves a spring clean-up and some cosmetic pampering to help preserve its beautiful body and interior.

To guide owners with an automotive beauty treatment in mind, John Farley of Chrysler Corp. offers 13 tips, starting with the interior:

1. Most car upholstery fabrics are treated with soil-resistant finishes that make dirt sit on the surface. Prevent loose dirt from working into the fabric by frequent vacuuming. Or keep a light broom in the glove compartment and brush frequently unless fabric has raised tapestry threads that brushing could damage.
2. To clean the new velours and other fabric upholstery or auto carpet, vacuum loose dirt and treat stains. Then use foam cleaner or a mild detergent or soap. Apply suds first to an inconspicuous area to be certain it won't damage color or finish. Rub sparingly with a sponge into small area at a time. Wipe off excess suds and moisture, first with a damp cloth, then a clean, dry cloth.
3. Clean vinyl or leather upholstery with suds from a bar of mild, nonalkaline soap or special leather or vinyl cleaner. (Some vinyl upholstery cleaners also clean vinyl tops.)
4. To remove water-based stains (ketchup, milk, ice cream, coffee, some candies), use a dampened cloth to remove as much substance as possible. Wipe with a cloth dampened with warm water. If stain persists, rub lightly with cloth wet with cleaning fluid.
5. Scrub oil-based stains (butter, mayonnaise, grease, lipstick) with a dull cloth. Use solvent-type spot cleaner. Start outside and work to center.

ter to avoid leaving ring. Blot up excess and loosed oils with clean white paper towel.

6. Chewing gum or tar should be hardened by chilling with a cube of ice. Then proceed as for oil-based stains.
7. White stains left on carpeting by salty snow and slush can be removed by vacuuming, then careful work with a stiff bristle wire brush. For stubborn stains, apply a solution made with one cup of table salt to a quart of water. Wash off with foam-type upholstery cleaner.
8. Vinegar cuts the film on inside and outside glass. Use two tablespoons to a pint of water.
9. Mud and corroding road salts can be removed from unseen spots at a car-by-yourself car wash. Aim the water, pressurized soap spray from the hose underneath the car, particularly at fender wells, rocker panels and inside surfaces of bumpers.
10. The liquid soap that r-e-lieves dishpan hands, took strong disinfectant and chrome shines helps the do-it-yourself car washer by preventing water spots.
11. Don't wash the car in the sun or when paint is hot. After soaping and rinsing, don't wipe with a dry cloth. It can scratch the paint surface. Use a damp towel or squeeze-bout chamois.
12. To restore showroom shine to an older car, use a cleaning paste or liquid specifically recommended for deeply imbedded grime. Then apply polish. A one-step cleaner and polish will do for a newer car with only a mild coat of road film.
13. A dab of wax over a small break in paint stalls spread of rust. Better yet, treat with a touch-up paint coded to your car's color. Put a minimal amount of paint or the touch-up brush and stroke lightly.

Monarch sport coupe

A new Mercury Monarch sport coupe is available with sports exterior and/or sports interior option packages. The exterior package contains hood, decklid and upper and lower bodyside accent stripes; lowered opera-window appliques; a lower bodyside two-tone treatment; black moldings all around all windows and black windshield wiper arms; black

taillamp accents and wide rubber bumper guards front and rear. The interior option group includes a leather-wrapped sports steering wheel, special bucket-seat and door trim and a floor-mounted shift lever when the optional automatic transmission is ordered.
