### "The Day's Gone"

sighs the tired house-wife, "and I haven't had a minute  
for myself."

You can save many minutes for yourself, even hours, if  
you let Electricity do your work.

An Electric Sweeper will put the broom out of business.  
An Electric Washer will rob wash-day of its misery.  
An Electric Sewing Machine will take the labor out of  
sewing.

And you can run them  
for a few cents a day

## Let Us Help You Plan Your Home

NOTHING gives family more self-respect than owning its own home. Nothing else contributes so much toward the standing of a family in the community. It costs no more to build an attractive house than an unattractive one. It's all a matter of design—a matter of putting a little effort into planning the house. And design adds to the sale value of a house.

We can help you plan your house so that it will meet your needs.

Our booklet "White Pine in Home-Building" has valuable suggestions both on attractive designs in wood houses and on floor plans. Come in or send for it.

For the outside of a house White Pine is still the best wood on the market. Even after years of exposure to the weather it does not warp or twist or rot. It always stays where you put it.

That is why it has always been the favorite wood with architects.
