Farmington Roller Mills

## We Add 4% Compound Interest to Your Savings Account

When you put a man to work for you you pay him. When you work for yourself you expend energy, muscle and brain for every result you achieve. But when your money's at work for you, earning interest, you put forth no effort—and IT PAYS YOU. That's one advantage of an account in our bank!

It is so easy to save, provide for your future, and win independence when you once realize how much our bank will help you to help yourself. Men who awake to the power of compound interest a number of years ago and took advantage of the opportunity it offered, are now topnotchers in our town and county roundabout. From the very start, we make it worth while for you to save. Your account begins earning interest from the time of your first deposit, no matter how small. Do you realize how money grows at compound interest? Come in and let us show you how we will pay you to save. A small sum deposited regularly each week will banish worry and care and put you in comfortable circumstances. It will be your buffer against misfortune. Cars, houses, and other things in the community, enable you to own a home or other property—to have almost all of the things which are near and dear to you in your desire.

Bring in just ONE DOLLAR and let us credit it to you on a Savings Pass Book. Start a Good Habit
