Keep Baby Well—

Feverish colds that distress the little ones, that cause difficult breathing, that irritate their sensitive little throats and give them troublesome disturbing coughs, are readily helped and soothed by **Foley's Honey and Tar**.

The wise mother gives it for croup, whooping cough, measles cough and bronchial coughs.

Foley's Honey and Tar is just as good for grown-ups as for children. For hoarseness, tickling throat, troublesome night coughs, dry grating coughs and chronic coughs of elderly people it is widely recommended. It contains no morphine, chloroform or other drug that you would not like to give to young children, delicate persons or elderly people. Do not accept a substitute.

When our baby was 10 days old he took whooping cough in the worst form, and the physicians almost overcame him. Our neighbor suggested **Foley's Honey and Tar** and that gave him almost immediate relief, for which we feel very grateful. Mrs. J. H. Hightower, Odessa, Texas.

My baby was stricken with a severe cough and cold at one month old. I gave him 10 to 15 drops of **Foley's Honey and Tar** every three hours and it soon helped him. Mrs. D. H. Garrett, School Hill, Va.

Small Homes Can Be Beautiful

FOR the average home-builder wood is still the most economical building material. It gives you more house for the money and just as beautiful a house as you can build of any other material.

The beauty of a house lies in its design—and a small house, carefully designed, can be as attractive as one that costs several times as much.

If you are thinking of building you can get valuable suggestions from our booklet "White Pine in Home-Building". In it you will find a number of attractive homes and floor plans, designed by architects of national reputation.

Come in and talk over your plans with us, or send for the booklet.

For the outside of the house we recommend White Pine because it holds its place better than any other wood. It does not warp, split, twist or rot even after years of exposure to the weather.

We have other woods for other uses and always recommend the best wood for your particular requirements.
