THE LAND OF H

# Care and Responsibility.

THE responsibility attached to the preparing of a remedy for infants and children is undoubtedly greater than that imposed upon the manufacturer of remedies for adults whose system is sufficiently strong to counteract, for a time at least, any injurious drug. It is well to observe that Castoria is prepared today, as it has been for the past 40 years, under the personal supervision of Mr. Chas. H. Fletcher.

What have makers of imitations and substitutes at stake? What are their responsibilities? To whom are they answerable? They spring up today, scatter their nefarious wares broadcast, and discopear tomorrow. with the

Could each mother see the painstaking care with which the prescription for Fletcher's Castoria is prepared: could they read the innumerable festimonials from grateful mothers, they would never listen to the subtle pleadings and false arguments of those who would offer an imitation of, or substitute for, the tried and true Fletcher's Castoria

Testament, yet, it is equally true to-day. Truth shows no favors, fears no enemies.

From the inception of Fletcher's Castoria, Truth has been the watchword, and to the conscientions adherence to this motto in the preparation of Fletcher's Castoria as well as in its advertising is due the secret of its popular demand.

All initiations, all substitutes, all just-as-good preparations lack the element of Truth, lack the righteousness of being, lack all semblance even in the words of those who would deceive.

And you! Mothers, mothers with the fats of the World in your hands, can you be deceived? Certainly not.

First Deceiver's Castoria is prepared for Infants and Children. It is distinctly a remedy for the little-one. The BABY'S need for a medicine to take the place of Castor Oil, Paregorie and Southing Syrupe was the sole thigher that led to its discovery. Wever try to correct BABY'S troubles with a medicine that you would use for yourself.
