Money to Loan on First Real Estate Mortgages.

Energy

THE WORK OF THE KIDNEYS is to filter and cast out waste products and poisons from the blood stream. When the kidneys are overworked, weak or diseased, the waste matter remains in the system and causes pains in side or back, rheumatism, hiccups, stiffness of joints, sore muscles and other ailments.

Foley Kidney Pills

When a person's kidneys are out of order, there is lack of energy, force, vigor, and general effectiveness. Kidneys and bladder must properly function for a person to enjoy good health.

For Sale by T. H. McGee

Local News

Information You Should Have

To Talk Reverently of 1913-14 Prices is to speak a Dead Language Today

We are on a Permanently Higher Price Level

If you have something to Sell, go ahead and Sell it

If you Need anything, go ahead and Buy it

You will NOT be able to either Buy or Sell at the price level of Five Years Ago.

STOP THINKING ABOUT IT. DO BUSINESS! LET'S GO!

If you would be posted on construction costs, to meet the arguments of persons reluctant to build, because of "prices too high," we would suggest the perusal of several of the latest pamphlets on this subject, issued by the U. S. Department of Labor.

"Is the Cost of Construction High?" and "Prices During the War and the Reconstruction Period"

are two helpful booklets that may be obtained free of charge by addressing the U. S. Department of Labor.

The great home building movement has not reached its height, and wages are not going to come down,

"So Build Now" We solicit your inquiries and are always ready to figure your lumber requirements, giving you estimate in dollars and cents of the cost. No bills too large and none too small.

TOLEDO, OHIO

Buy Your Winter's Coal NOW

Buyers of Coal are delaying their purchase in the same manner as in 1917, forgetful of the awful experience of that winter. This same warning was sent out during that year, but the coal consumers were advised by others not to buy—that the price would go down. The natural result followed; prices advanced instead of declining and coal was difficult to obtain. Economic law will assert itself. Delay in purchasing coal will delay production.

There is an abundance of COAL in the hills of our coal producing states; the supply is unlimited insofar as the coal itself is concerned but coal shortage and car shortage follows labor shortage and inadequate railroad transportation. Wages of labor will not be reduced and freight rates will advance. SO BUY COAL NOW.
