PAINTING TIME

WE ARE HEADQUARTERS FOR YOUR NEEDS

Renew your linoleum with VALSPAR

Wherever you have linoleum, tile or cloth in your home, varnish it with Valspar after it has been on the floor three or four months.

You will be delighted with the result. The Valspar will brighten it up and make it feel a great deal longer.

Valsparred linoleum can be washed freely with soap and warm water. In fact, even boiling water has no effect on Valspar.

Hot grease can spatter or spill on Valsparred kitchen linoleum without injuring the finish or soaking in.

Spilled liquids, such as Vinegar, ammonia and alcohol will not harm Valspar.

In halls and vestibules Valspar will protect linoleum against scuffing feet and dripping umbrellas.

Valspar is easy to apply and it dries over night.

Try it! Give your linoleum two coats of Valspar, allowing the first coat to harden at least a week before giving the second.

Tear out this advertisement now as a reminder to drop in at our Store and get a can of Valspar.

Discouraging Art.

"Why do you spend your days and nights on these pictures?" asked the wife of the struggling artist. "You don't get enough for them to pay you for the paint you use."

"I know, my dear," he answers; "but think! Rembrandt and others painted pictures and sold them for triffles, and they are now the masterpieces of the world and bring millions of dollars! I am not painting for us, I am painting for our descendants."

"Humph!" is the discouraging reply. "You don't make enough for us to afford to raise any descendants."—St. Louis Globe-Democrat.
